ARCHITECTURAL CONTROL COMMITTEE AND REQUIREMENTS OF CONSTRUCTION

SECTION 2.1. Concept. It is intended that the Subdivision will be a residential community of high esteem and quality homes.

2.2. Architectural Control Committee. The Architectural Control Committee (herein referred to as the "Committee") shall be composed of not less than three (3) members and at all times, regardless of the number on the Committee, at least two-thirds (2/3) of the membership of the Committee shall be composed of owners of lots in the Subdivision. Provided, however, that K & C reserves the right to appoint the initial and successor members of the Committee, or until K & C elects to terminate its control of the Committee, whichever shall first occur. The initial committee members upon recording of these covenants will consist of Victor Kyatt, Ed Castleberry, Thurman Wilson and James Kelly.

After all the lots have been conveyed and houses constructed thereon, the powers, duties, authority and responsibilities of the Committee shall be assumed and exercised by the Homeowners' Association or Association's established in accordance with Article VI hereof.

The primary duty of the Committee shall be to examine and approve or disapprove all plans, including site plans, for construction of improvements on lots within this subdivision in accordance with the provisions of these covenants. The Committee shall have such other responsibilities, duties and authority as provided for, but the Committee shall not have any responsibility, duty, power or authority not provided for herein.

2.3. Plan Approval. All plans and specifications for any structure or improvement whatsoever to be erected on or moved upon or to any lot, and the proposed location thereof on any lot or lots, the construction material, the roofs, any later changes or additions after initial approval thereof and any remodeling, reconstruction, alterations or additions thereto on any lot shall be subject to and shall require the approval in writing of the Committee before any work is commenced. Construction may not be started before receipt of a Letter of Approval of the Committee. Said plans should be delivered to the general office of K & C at least thirty days prior to construction and will be retained by the Committee. Each such plan must include the following.

2.4.1. All plans for structure shall be not less than 1/8" = 1' scale.

2.4.2. All plans must take into consideration the particular topographic and vegetative characteristics of the lot or lots involved.

2.4.3. All plans must state the elevations of all sides of the proposed structure as such sides will be after finished grading has been accomplished.

2.4.4. The foundations and floor plan(s) shall show the existing grade on each elevation in order that the extent of cut and/or fill areas may be easily and clearly determined.

2.4.5. The site plan shall show all outlines, setbacks, drives, fences, and underground trench locations at a scale of 1" = 20'.

After the plan and site plan for the structure is approved, the house or other structure may be staked out and construction started. All tree cutting and grading will be performed as to protect and maintain a natural surrounding for the lot or lots.

2.5. Design Criteria, Structure

2.5.1. It is the intent of this development to maintain itself with as many natural surfaces and textures as is possible. The following exterior materials, among others, are acceptable:

- (a) Brick in natural earth tones (No exposed block will be permitted.)

- (c) Stone.
- (d) Wood shakes or natural-colored asphalt shingles, or slate roofing. White roofing is not acceptable.

In intent, this criteria frowns upon the practice of placing materials on the sides and back of a residence that are essentially different from the front elevation.

2.5.2. Openings of garages should not be visible from the street, except in cases where it is unavoidable.

2.5.3. No window air conditioner shall face the front or the side of a residence.

2.5.5. An effort will be made for all plumbing or heating vents to be placed on the back side of the roof. All vents and/or pipes protruding from roofs will be painted the same color as the roof covering.

In any event, no building shall be located on any lot nearer than 35 feet to the front line, or located nearer than 15 feet to an interior lot line. No dwelling shall be located nearer than 25 feet to the rear lot line. For the purpose of this covenant, eaves, steps and open porches shall not be construed to permit any portion of a building, on a lot to encroach upon another lot.

2.5.11. All building debris, stumps, trees, etc., must be removed from each lot by builder as often as necessary to keep the house and lot attractive. Such debris shall not be dumped in any area of Southern Pines without approval of K & C.

2.5.12. During construction, builder must keep homes and garages clean and yards cut.

2.5.13. There shall be no silver finish metal doors (including glass sliding doors) or windows of any kind; however, a factory painted or anodized finish may be used. The color of such finish should be natural earth tones.

2.5.14. Landscaping will provide a suitable setting for the dwelling, and will maintain as much of the natural surroundings as possible.

2.5.15. All fences, including fences for back yards and swimming pools, must be approved by the Committee prior to its construction. Any fences visible from the front or side street must have a wood barrier of natural earth tone color or bleached.

2.5.16. There shall be no signs nailed to trees at any time. All signs should have their own stake or post and must be removed from the lot or lots after the house has been completed and sold.

2.5.17. No outside clothes lines shall be permitted.

SECTION 3.1. All lots in the Subdivision shall be known and described as residential lots and shall be used for single family residential purposes exclusively and no lot shall be subdivided so as to reduce the size of the lot. No structure, except as otherwise provided, shall be erected, altered, placed or permitted to remain on any residential building lot other than one detached single family residence dwelling not to exceed two (2) stories or twenty-one (21) feet front plate height, or, on uphill lots, three (3) stories or twenty-eight (28) feet front plate height, and a private garage for not more than three (3) cars. The first or main floor area of each such dwelling building, exclusive of one-story open porches, garages, carports and basements, shall be not less than 1800 square feet in the case of a one-story structure and not less than 1000 square feet in the case of a one and one-half, two, two and one-half or three story structure.

4.2. All lots, whether occupied or unoccupied, and any improvements placed thereon, shall at all times be maintained in a neat and attractive condition and in such manner as to prevent their becoming unsightly by reason of unattractive growth on such lot or the accumulation of rubbish or debris thereon. In order to implement effective control of this item, K & C reserves for itself and its agents the right, after ten (10) days notice to any lot owner, to enter upon any residential lot with such equipment and devices as may be necessary for the purpose of mowing, removing, clearing, or cutting underbrush, weeds or other unsightly growth and trash which in the opinion of K & C or the Committee detracts from the overall beauty and safety of the Subdivision. Such entrance upon such property for such purposes shall be only between the hours of 7:00 a.m. and 6:00 p.m. on any day except Sunday and shall not be a trespass. K & C may charge the owner a reasonable cost for such services, which charge shall constitute a lien upon such lot enforceable by appropriate proceedings at law or equity. The provisions of this paragraph shall not be construed as an obligation on the part of K & C or the Committee to mow, clear, cut or prune any lot nor to provide garbage or trash removal services.

4.3. No animals, livestock or poultry of any kind or description except the usual household pets shall be kept on any lot, provided that no household pet may be kept on any lot for breeding or commercial purposes.

4.4. No noxious, offensive or illegal activities shall be carried on upon any lot nor shall anything be done on any lot which may be or may become an annoyance or nuisance to the neighborhood. No commercial activity shall be carried on on any lot.

4.5. No oil or natural gas drilling, refining, quarrying or mining operations of any kind shall be permitted upon any lot and no derrick or other structure designed for use in boring for oil or natural gas shall be erected, maintained or permitted on any lot; nor shall oil wells, tanks, tunnels, mineral excavations or shafts be permitted on any lot.

4.6. No trash, garbage or other refuse shall be dumped, stored or accumulated on any lot. Trash, garbage or other waste shall not be kept on any lot except in sanitary containers or garbage compactor units. Garbage containers, if any, shall be kept in a clean and sanitary condition, and shall be so placed or screened by shrubbery or other appropriate material approved in writing by the Committee as not to be visible from any road at any time except during refuse collection. No outside burning of trash, garbage or household refuse shall be permitted.

4.7. All signs, billboards or advertising structures of any kind are prohibited except builder and subcontractor signs during construction periods as authorized in Section 2.5.16 above, and except one professional sign of not more than one (1) square foot to advertise the property for sale during sales period. No sign is permitted to be nailed or attached to trees.

4.8. No structure of a temporary character, trailer, basement, tent or shack shall be used at any time as a residence either temporarily or permanently. There shall be no occupancy of any dwelling until the interior and exterior of the dwelling are completed and a certificate, or other satisfactory evidence, of completion is recieved by and approved by the Committee.

4.9. Any dwelling or other structure on any lot in the Subdivision which may be destroyed in whole or in part for any reason must be rebuilt within one (1) year. All debris must be removed and the lot restored to a sightly condition with reasonable promptness, provided that in no event shall such debris remain on any lot longer than sixty (60) days.

4.10. No fence, wall, hedge or shrub planting which obstructs sight lines at elevations between 2 and 6 feet above any roadway shall be placed or permitted to remain on any corner lot within the triangular area formed by the street property lines and a line connecting them at points 25 feet from the intersection of the street lines, or in the case of a rounded property corner from the intersection of the street property lines extended. The same sight-line limitations shall apply on any lot within 10 feet from the intersection of a street property line with the edge of a driveway or alley pavement. Except as herein provided, no trees shall be permitted to remain within such distance of such intersections unless the foliage is maintained at sufficient height to prevent obstruction of such light-lines. Any such tree of a rare or unusual species may be permitted to remain in place upon application to and written permission from the Committee and approved by the appropriate city, county or state official or department.

4.11. No boat, boat trailer, house trailer, camper or similar equipment or vehicle shall be parked or stored on any road, street, driveway, yard or lot located in the Subdivision for any period of time in excess of 24 hours except in garages.
