CIVIL ACTION

NO. CA 66-769

MOTION FOR SUMMARY JUDGMENT BY PLAINTIFF

Plaintiff moves the Court to enter, pursuant to Rule 56 of the Federal Rules of Civil Procedure, a summary judgment to plaintiff's favor on the issue of the necessity of taking the lands described in the amended complaint herein as Tracts numbered 382-2, 382-1, 314, 377, 379, 283, 292, 369, 393, 510, 271, 280, 247, 408-3, 374, 496, 512, 287-1, 2 & 3, 249, 375, 349, 209-3, 502, 372, 381-1 & 2, 362, 503-1, 2 & 3, 383-3, 244-1 & 2, 341, 278, 501, 272, 354, 500, 342, 345, 350-1 & 2 and 336-1 & 2 for the purposes and uses outlined in the complaint on the ground that there is no genuine issue as to any material fact relative to the necessity for the taking of such lands and that plaintiff is entitled to a ruling that such lands are necessary for the purposes stated as a matter of law.

This motion is based on the attached affidavit of Mr. E. R. Coulbourn.

STATE OF ALABAMA  
JEFFERSON COUNTY

AFFIDAVIT OF E. R. COULBOURN IN SUPPORT OF  
MOTION FOR SUMMARY JUDGMENT

Before me, the undersigned authority in and for said County in said State, personally appeared E. R. Coulbourn, who being known to me and by me first duly sworn, on his oath deposes and says as follows:

My name is E. R. Coulbourn. I am a Vice President-Engineering for Alabama Power Company. Alabama Power Company is a corporation organized under the laws of Alabama and has its principal place of business in Birmingham, Alabama. I have been employed by or associated with Alabama Power Company for over forty years.

Alabama Power Company constructed its Lay Dam and Reservoir across the Coosa River under authority of the Act of Congress of March 4, 1907 (34 Stat. 1288) and acquired lands and interests in lands therefor to those certain datum planes of 382.2 feet (between River Miles 51.8 and 57.5) and 387.2 feet (between River Miles 57.5 and 73.2) above mean sea level as established by the United States Coast and Geodetic Survey, as adjusted in January, 1955.

The engineering for and planning of Alabama Power Company's current development of the Coosa River, from a point thereon at Mayo's Bar in Floyd County, Georgia, to a point near Wetumpka, Alabama, which includes the enlargement of Lay Dam, the construction of four other dams, and certain other works, were performed in the Engineering and Construction Departments of Alabama Power Company. I have personal knowledge of such plans and the formulation and development thereof. These plans when completed were submitted to the Federal Power Commission which, with certain modifications, approved them and assigned thereto the designation of F.P.C. Project No. 2146.

F.P.C. Project No. 2146 includes specifications for various structures and component parts of Lay Dam and Reservoir which is presently in the process of being enlarged on the Coosa River in Chilton, Coosa, Shelby and Talladega Counties, Alabama. These improvements there provided for include the dam, reservoir, powerhouse, gated spillway, compacted earth reservoir retaining dikes, navigation facilities, substation,

BOOK 071 PAGE 208

2.

and transmission and communication facilities. There are other works appurtenant or accessory to the enlargement, maintenance and operation of Lay Dam and Reservoir, such as borrow and waste disposal areas, access roads, security areas, and others, which I shall not mention.

The new and enlarged reservoir will be constructed so that its normal water elevation at the dam, being approximately River Mile Post 51.8, will be 397 feet above mean sea level as established by the United States Coast and Geodetic Survey, as adjusted in January, 1955. Proceeding upstream from the dam, the normal reservoir elevation rises progressively from that at the dam, according to hydraulic gradient, to an elevation of 406 feet at River Mile Post 99.8, which is the upper end of the reservoir at the powerhouse of Logan Martin Dam, in St. Clair and Talladega Counties. During or after periods of heavy rainfall, either locally in the reservoir or in the drainage area affecting it, the water elevation of the reservoir may rise from time to time above the normal reservoir elevation into the flood easement area. The flood easement area begins at approximately River Mile Post 64 and at that point will be 398 feet, or one foot above normal reservoir elevation. Proceeding upstream from River Mile Post 64, the elevation of the flood easement area rises progressively, according to hydraulic gradient, to an elevation of 410 feet at River Mile Post 99.8 (which is the upper end of the Reservoir), or four feet above normal reservoir elevation. The specific elevations, both for normal reservoir elevation and, where applicable, flood easement elevation, are shown on each of the Tracts attached to the amended complaint in this case and designated Exhibit A.

I have personal knowledge of the manner in which the structures and component parts of Lay Dam and Reservoir will be actually located on the Coosa River and the project lands adjoining it, and know how such improvements and the reservoir will be located with respect to those parcels of land described in the amended complaint as Tracts numbered 382-2, 382-1, 314, 377, 379, 283, 292, 369, 393, 510, 271, 280, 247, 408-3, 374, 496, 512, 287-1, 2 & 3, 249, 375, 349, 209-3, 502, 372, 381-1 & 2, 362, 503-1, 2 & 3, 383-3, 244-1 & 2, 341, 278, 501, 272, 354, 500, 342, 345, 350-1 & 2 and 336-1 & 2. These lands

BOOK 071 PAGE 209

3.

are sought to be condemned in this proceeding for use in connection with the reservoir. Attached to this affidavit, and made a part hereof, are maps or sketches showing these tracts. Each tract will be affected by the waters of the reservoir in the manner shown on the individual map or sketch. Shown in blue on each map or sketch is the portion of the tract to be covered by the reservoir, when it is at its normal elevation, and shown in yellow is the portion of the tract to be covered when the reservoir is at flood easement elevation. The approximate acreage in the various portions of the tract is shown also. The elevations, or contour lines, shown on the maps have been staked on the ground, and painted, on each individual tract.

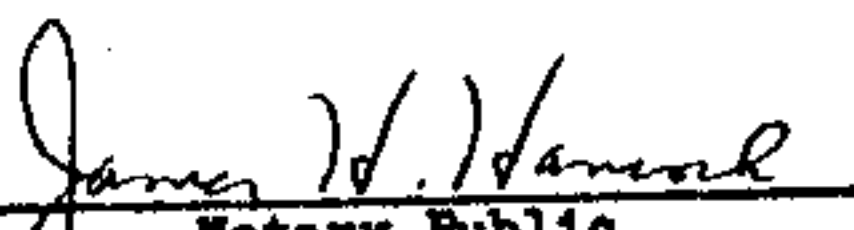

In addition, it will be necessary to go on and across the lands of the various tract owners, which will not be flooded, with men and equipment to clear the area of the particular tract which will be within the limits of the normal reservoir.

I have personal knowledge of the correctness of the above statements.

  
E. R. Coulbourn

CLERK, U. S. DISTRICT COURT

ORDER ON MOTION FOR SUMMARY JUDGMENT  
AND JUDGMENT CONDEMNING LAND

A motion having been made by the plaintiff for summary judgment in its favor on the issue of the necessity of taking the lands described in the complaint herein as Tract Nos. 382-2, 382-1, 314, 377, 379, 283, 292, 369, 393, 510, 271, 280, 247, 408-3, 374, 496, 512, 287-1, 2 & 3, 249, 375, 349, 209-3, 502, 372, 381-1 & 2, 362, 503-1, 2 & 3, 383-3, 244-1 & 2, 341, 278, 501, 272, 354, 500, 342, 345, 350-1 & 2 and 336-1 & 2 for the purposes and uses outlined in Paragraphs 3 and 4 of the complaint on the ground that there is no genuine issue as to any material fact relative to the necessity for the taking of such lands and that plaintiff is entitled to judgment on such issue as a matter of law; and

The plaintiff subsequent to the filing of such motion for summary judgment having amended the complaint by deleting Tract Nos. 382-2, 382-1, 283, 381-1 & 2 and 345 from these proceedings and from the motion for summary judgment;

Now, on considering the affidavit of E. R. Coulbourn filed in support of such motion for summary judgment, which affidavit establishes in the opinion of the court that plaintiff needs the tracts of land designated hereinafter for the purposes stated in the complaint; and

It appearing to the court that there is no genuine issue as to any material fact, except as to the amount of damages to which the condemnees herein are entitled, and the court having concluded after due

BOOK 071 PAGE 212

2.

deliberation having been had, that plaintiff is entitled to summary judgment as to the issue of necessity for the taking as hereinafter specified and to an order condemning the respective lands and interests therein; it is

ORDERED, ADJUDGED and DECREED that the motion for summary judgment, insofar as it pertains to the tracts hereinafter listed, be and the same is hereby granted; and it is

FURTHER ORDERED, ADJUDGED and DECREED that, without further order of this court, plaintiff upon making the deposits of money in court hereinafter specified, be vested with

A. Fee simple title to those portions of (i) Tract Nos. 379, 271, 496, 209-3, and 336-1 & 2 lying below that certain datum plane of 397 feet, (ii) Tract Nos. 510, 408-3, 512, 349, 372, 383-3, 341, 278, 272, 354, 500, 342, and 350-1 & 2 lying below that certain datum plane of 398 feet, (iii) Tract Nos. 280, 247, 287-1, 2 & 3, 502, 503-1, 2 & 3, 244-1 & 2, and 501 lying below that certain datum plane of 399 feet; (iv) Tract No. 362 lying below that certain datum plane of 400 feet; (v) Tract No. 369 lying below that certain datum plane of 402 feet; and (vi) Tract Nos. 393, 374 and 375 lying below that certain datum plane of 403 feet, all above mean sea level as established by the United States Coast and Geodetic Survey, as adjusted in January, 1955;

B. The right to flood or cover with water at intervals from time to time, and the right to prevent the construction, use, occupation or habitation of any structures except fences, docks, wharves and boat-houses not capable of human habitation (including the right to tear down or remove any such prohibited structures) on, the portions of (i) Tract No. 496 which lies above such datum plane of 397 feet and which would be flooded or covered by the waters of the Coosa River and its tributaries should the level of such water be raised and backed up to that certain datum plane of 401 feet; (ii) Tract Nos. 209-3 and 336-1 & 2 which lie above such datum plane of 397 feet and which would be flooded or covered by the waters of the Coosa River and its tributaries should the level of such water be raised and backed up to that certain datum plane of 403 feet;

BOOK 071 PAGE 213

3.

(iii) Tract Nos. 379 and 271 which lie above such datum plane of 397 feet and which would be flooded or covered by the waters of the Coosa River and its tributaries should the level of such water be raised and backed up to that certain datum plane of 404 feet; (iv) Tract No. 272 which lies above such datum plane of 398 feet and which would be flooded or covered by the waters of the Coosa River and its tributaries should the level of such water be raised and backed up to that certain datum plane of 405 feet; (v) Tract Nos. 408-3, 349, 383-3, 341 and 342 which lie above such datum plane of 398 feet and which would be flooded or covered by the waters of the Coosa River and its tributaries should the level of such water be raised and backed up to that certain datum plane of 406 feet; (vi) Tract Nos. 510, 512, 372, 278, 354, 500 and 350-1 & 2 which lie above such datum plane of 398 feet and which would be flooded or covered by the waters of the Coosa River and its tributaries should the level of such water be raised and backed up to that certain datum plane of 407 feet; (vii) Tract Nos. 280, 502, 503-1, 2 & 3 and 501 which lie above such datum plane of 399 feet and which would be flooded or covered by the waters of the Coosa River and its tributaries should the level of such water be raised and backed up to that certain datum plane of 407 feet; (viii) Tract Nos. 247, 287-1, 2 & 3 and 244-1 & 2 which lie above such datum plane of 399 feet and which would be flooded or covered by the waters of the Coosa River and its tributaries should the level of such water be raised and backed up to that certain datum plane of 408 feet; (ix) Tract No. 362 which lies above such datum plane of 400 feet and which would be flooded or covered by the waters of the Coosa River and its tributaries should the level of such water be raised and backed up to that certain datum plane of 408 feet; (x) Tract No. 369 which lies above such datum plane of 402 feet and which would be flooded or covered by the waters of the Coosa River and its tributaries should the level of such water be raised and backed up to that certain datum plane of 408 feet; (xi) Tract Nos. 393, 374 and 375 which lie above such datum plane of 403 feet and which would be flooded or covered by the waters of the Coosa River and its tributaries should

BOOK 071 PAGE 214

TRACT NO. 287-1, 2 & 3DESCRIPTION:

(a) A tract or parcel of land in Fractions "B" and "C" and the Northeast Quarter of Southwest Quarter ( $NE\frac{1}{4}$  of  $SW\frac{1}{4}$ ) of Section 17, Township 20 South, Range 3 East, Talladega County, Alabama being more particularly described as follows: Commence at the Northeast Corner of the Southwest Quarter of the Southwest Quarter ( $SW\frac{1}{4}$  of  $SW\frac{1}{4}$ ) of Section 17, Township 20 South, Range 3 East, thence South along the East line of said Southwest Quarter of Southwest Quarter ( $SW\frac{1}{4}$  of  $SW\frac{1}{4}$ ) 98.23 feet to a point on the Southeast line of Lot 18 of Block 2 of Pinewood Terrace, Inc., a Subdivision, as shown by Plat Book 3, Page 45, Talladega County, Alabama; thence in a Northeasterly direction along the Southeast line of Block 2, 3 and 4 of said Pinewood Terrace, Inc., a Subdivision, 797.16 feet more or less to the Northeast Corner of Lot 2 of Block 4 of said Pinewood Terrace, Inc., to the point of beginning of the land herein described; from such point of beginning turn an angle to the left of 71 degrees 26 minutes and proceed along the Northeast line of Lots 2, 3, 4 and 5 of Block 4 of said Pinewood Terrace, Inc., a distance of 297.8 feet; thence turn an angle of 52 degrees 27 minutes to the left and proceed along the North line of Block 4 of said Pinewood Terrace, Inc., for 1265.08 feet to the Northwest Corner of said Pinewood Terrace, Inc.; thence continue along the same course in a straight line to the West line of said Section 17, Township 20 South, Range 3 East; thence North along the West line of said Section 17 to Coosa River; thence Northeasterly along the South Bank of Coosa River to Tallaseehatchee Creek; thence in a Southeasterly direction along the meanderings of Tallaseehatchee Creek to its intersection with Access Road (Childersburg-Alabama Ordnance Work Road); thence in a Southwesterly direction along the Northwest line of said Access Road to the point of beginning; less and except 3 tracts or parcels of land described as follows:

EXCEPTION ONE: Begin at the intersection of the Southwest Bank of Tallaseehatchee Creek and the Northwest side of Access Road (Childersburg-Alabama Ordnance Work Road) and run Northwesterly along the Southwest Bank of said Creek a distance of 315 feet; thence in

BOOK 071 PAGE 238

TRACT NO. 287-1, 2 & 3 CONTINUED

a Southwesterly direction and parallel with said Access Road a distance of 420 feet; thence in a Southeasterly direction and parallel with said Creek a distance of 315 feet to the Northwest right-of-way of the said Access Road; thence run in a Northeasterly direction and along said right-of-way a distance of 420 feet to the point of beginning.

EXCEPTION TWO: Commence at a point situated in Fraction "B" of said Section 17 where the West Bank of Tallaseehatchee Creek intersects the North side of Access Road and run in a Northwesterly direction along the West Bank of said Creek for a distance of 315 feet, more or less, to the Northeast Corner of lands formerly owned by Pearl C. Bailey and husband W. C. Bailey and the point of beginning of the Tract or Parcel of land herein excepted. From such point of beginning which is on the low water mark of Tallaseehatchee Creek; run in a Southwesterly direction parallel with the West boundary line of said Access Road and along the boundary of lands formerly owned by Pearl C. Bailey and W. C. Bailey for a distance of 200 feet; thence Northwesterly for a distance of 150 feet; thence Northeasterly for a distance of 175 feet, more or less to the low water mark of said Tallaseehatchee Creek; thence Southeasterly along said Creek 150 feet more or less to the point of beginning.

EXCEPTION THREE: Starting at the Northeast Corner of the Southwest Quarter of Southwest Quarter ( $SW\frac{1}{4}$  of  $SW\frac{1}{4}$ ), Section 17, Township 20 South, Range 3 East, proceed west along the North boundary of the Southwest Quarter of Southwest Quarter for a distance of 1171.80 feet, said point being the intersection of the South and West limits of subdivision known as Pinewood Terrace, Inc., thence an angle of 104 degrees 38 minutes to the right for a distance of 695.62 feet to the Northwest Corner of Pinewood Terrace, Inc., a Subdivision; thence an angle of 77 degrees 33 minutes to the right for a distance of 7.59 feet; thence an angle to the left of 82 degrees 29 minutes for a distance of 302.49 feet; thence an angle of 59 degrees 52 minutes to the left for a distance of 191.0 feet to a point of beginning on a square parcel measuring 100 feet on each side; thence an angle of 90 degrees right for a distance of 50.0 feet; thence an angle to the left of 90 degrees for a distance of 100.0

(a) All of fractional Section 23, Township 20 South, Range 2 East, Shelby County, Alabama, lying North of Coosa River, less and except the North Half of the Northeast Quarter ( $N\frac{1}{2}$  of  $NE\frac{1}{4}$ ).

(b) All of Section 14, Township 20 South, Range 2 East, Shelby County, Alabama, less and except the North Half of Northeast Quarter ( $N\frac{1}{2}$  of  $NE\frac{1}{4}$ ) and the Southeast Quarter of Northeast Quarter ( $SE\frac{1}{4}$  of  $NE\frac{1}{4}$ ).

(c) The Northwest Quarter of Section 11, Township 20 South, Range 2 East; also, the West Half of Southwest Quarter ( $W\frac{1}{2}$  of  $SW\frac{1}{4}$ ) of Section 11, Township 20 South, Range 2 East; also, the South Half of Northeast Quarter ( $S\frac{1}{2}$  of  $NE\frac{1}{4}$ ) of Section 10, Township 20 South, Range 2 East; also, the Southeast Quarter of Section 10, Township 20 South, Range 2 East; also, the East Half of Southwest Quarter ( $E\frac{1}{2}$  of  $SW\frac{1}{4}$ ) of Section 10, Township 20 South, Range 2 East; all of the above being situated in Shelby County, Alabama.

ACREAGE TO BE AFFECTED:

34.1 acres, more or less, of this tract will be completely submerged by Lay Reservoir when it is raised to its new elevation of 399 feet above mean sea level. An additional 121.5 acres, more or less of such tract will be subject to flooding from time to time when Lay Reservoir is raised to an elevation of 407 feet above mean sea level.

CIVIL ACTION

NO. CA 66-769

MOTION FOR SUMMARY JUDGMENT BY PLAINTIFF

Plaintiff moves the Court to enter, pursuant to Rule 56 of the Federal Rules of Civil Procedure, a summary judgment to plaintiff's favor on the issue of the necessity of taking the lands described in the amended complaint herein as Tracts numbered 313, 348-1 & 2, 237-1 & 2, 275 and 383-1 & 2 for the purposes and uses outlined in the complaint on the ground that there is no genuine issue as to any material fact relative to the necessity for the taking of such lands and that plaintiff is entitled to a ruling that such lands are necessary for the purposes stated as a matter of law.

This motion is based on the attached affidavit of Mr. E. R.

Coulbourn.

CLERK, U. S. DISTRICT COURT

By \_\_\_\_\_  
Deputy Clerk

071-270

STATE OF ALABAMA }  
JEFFERSON COUNTY }

AFFIDAVIT OF E. R. COULBOURN IN SUPPORT OF  
MOTION FOR SUMMARY JUDGMENT

Before me, the undersigned authority in and for said County in said State, personally appeared E. R. Coulbourn, who being known to me and by me first duly sworn, on his oath deposes and says as follows:

My name is E. R. Coulbourn. I am a Vice President-Engineering for Alabama Power Company. Alabama Power Company is a corporation organized under the laws of Alabama and has its principal place of business in Birmingham, Alabama. I have been employed by or associated with Alabama Power Company for over forty years.

Alabama Power Company constructed its Lay Dam and Reservoir across the Coosa River under authority of the Act of Congress of March 4, 1907 (34 Stat. 1288) and acquired lands and interests in lands therefor to those certain datum planes of 382.2 feet (between River Miles 51.8 and 57.5) and 387.2 feet (between River Miles 57.5 and 73.2) above mean sea level as established by the United States Coast and Geodetic Survey, as adjusted in January, 1955.

The engineering for and planning of Alabama Power Company's current development of the Coosa River, from a point thereon at Mayo's Bar in Floyd County, Georgia, to a point near Wetumpka, Alabama, which includes the enlargement of Lay Dam, the construction of four other dams, and certain other works, were performed in the Engineering and Construction Departments of Alabama Power Company. I have personal knowledge of such plans and the formulation and development thereof. These plans when completed were submitted to the Federal Power Commission which, with certain modifications, approved them and assigned thereto the designation of F.P.C. Project No. 2146.

F.P.C. Project No. 2146 includes specifications for various structures and component parts of Lay Dam and Reservoir which is presently in the process of being enlarged on the Coosa River in Chilton, Coosa, Shelby and Talladega Counties, Alabama. These improvements there provided for include

BOOK 071 PAGE 271

2.

the dam, reservoir, powerhouse, gated spillway, compacted earth reservoir retaining dikes, navigation facilities, substation, and transmission and communication facilities. There are other works appurtenant or accessory to the enlargement, maintenance and operation of Lay Dam and Reservoir, such as borrow and waste disposal areas, access roads, security areas, and others, which I shall not mention.

The new and enlarged reservoir will be constructed so that its normal water elevation at the dam, being approximately River Mile Post 51.8, will be 397 feet above mean sea level as established by the United States Coast and Geodetic Survey, as adjusted in January, 1955. Proceeding upstream from the dam, the normal reservoir elevation rises progressively from that at the dam, according to hydraulic gradient, to an elevation of 406 feet at River Mile Post 99.8, which is the upper end of the reservoir at the powerhouse of Logan Martin Dam, in St. Clair and Talladega Counties. During or after periods of heavy rainfall, either locally in the reservoir or in the drainage area affecting it, the water elevation of the reservoir may rise from time to time above the normal reservoir elevation into the flood easement area. The flood easement area begins at approximately River Mile Post 64 and at that point will be 398 feet, or one foot above normal reservoir elevation. Proceeding upstream from River Mile Post 64, the elevation of the flood easement area rises progressively, according to hydraulic gradient, to an elevation of 410 feet at River Mile Post 99.8 (which is the upper end of the reservoir), or four feet above normal reservoir elevation. The specific elevations, both for normal reservoir elevation and, where applicable, flood easement elevation, are shown on each of the Tracts attached to the amended complaint in this case and designated Exhibit A.

I have personal knowledge of the manner in which the structures and component parts of Lay Dam and Reservoir will be actually located on the Coosa River and the project lands adjoining it, and know how such improvements and the reservoir will be located with respect to those parcels of land described in the amended complaint as Tracts numbered 313, 348-1 & 2,

BOOK 071 PAGE 272

3.

237-1 & 2, 275, 383-1 & 2 and 324. These lands are sought to be condemned in this proceeding for use in connection with the reservoir. Attached to this affidavit, and made a part hereof, are maps or sketches showing these tracts. Each tract will be affected by the waters of the reservoir in the manner shown on the individual map or sketch. Shown in blue on each map or sketch is the portion of the tract to be covered by the reservoir, when it is at its normal elevation, and shown in yellow is the portion of the tract to be covered when the reservoir is at flood easement elevation. The approximate acreage in the various portions of the tract is shown also. The elevations, or contour lines, shown on the maps have been staked on the ground, and painted, on each individual tract.

In addition, it will be necessary to go on and across the lands of the various tract owners, which will not be flooded, with men and equipment to clear the area of the particular tract which will be within the limits of the normal reservoir.

I have personal knowledge of the correctness of the above statements.

*E. R. Coulbourn*

FILED IN CLERK'S OFFICE  
NORTHERN DISTRICT OF ALABAMA

MAY 18 1967

WILLIAM E. DAVIS  
CLERK, U. S. DISTRICT COURT  
By MARY L. TOSTORICI  
Deputy Clerk

ORDER ON MOTION FOR SUMMARY JUDGMENT  
AND JUDGMENT CONDEMNING LAND

A motion having been made by the plaintiff for summary judgment in its favor on the issue of the necessity of taking the lands described in the complaint herein as Tract Nos. 313, 348-1 & 2, 237-1 & 2, 275 and 383-1 & 2 for the purposes and uses outlined in Paragraphs 3 and 4 of the complaint on the ground that there is no genuine issue as to any material fact relative to the necessity for the taking of such lands and that plaintiff is entitled to judgment on such issue as a matter of law; and

The plaintiff subsequent to the filing of such motion for summary judgment having amended the complaint by deleting Tract No. 237-1 & 2 from these proceedings and from the motion for summary judgment;

Now, on considering the affidavit of E. R. Coulbourn filed in support of such motion for summary judgment, which affidavit establishes in the opinion of the court that plaintiff needs the tracts of land designated hereinafter for the purposes stated in the complaint; and

It appearing to the court that there is no genuine issue as to any material fact, except as to the amount of damages to which the condemnees herein are entitled, and the court having concluded after due deliberation having been had, that plaintiff is entitled to summary judgment as to the issue of necessity for the taking as hereinafter specified

Box 071 Page 275

2.

and to an order condemning the respective lands and interests therein;  
it is

ORDERED, ADJUDGED and DECREED that the motion for summary judgment, insofar as it pertains to the tracts hereinafter listed, be and the same is hereby granted; and it is

FURTHER ORDERED, ADJUDGED and DECREED that, without further order of this court, plaintiff upon making the deposits of money in court hereinafter specified, be vested with

A. Fee simple title to those portions of (i) Tract Nos. 348-1 & 2 and 383-1 & 2 lying below that certain datum plane of 398 feet and (ii) Tract Nos. 313 and 275 lying below that certain datum plane of 399 feet; all above mean sea level as established by the United States Coast and Geodetic Survey, as adjusted in January, 1955;

B. The right to flood or cover with water at intervals from time to time, and the right to prevent the construction, use, occupation or habitation of any structures except fences, docks, wharves and boathouses not capable of human habitation (including the right to tear down or remove any such prohibited structures) on, the portions of (i) Tract Nos. 348-1 & 2 and 383-1 & 2 which lie above such datum plane of 398 feet and which would be flooded or covered by the waters of the Coosa River and its tributaries should the level of such water be raised and backed up to that certain datum plane of 406 feet; (ii) Tract No. 399 which lies above such datum plane of 399 feet and which would be flooded or covered by the waters of the Coosa River and its tributaries should the level of such water be raised and backed up to that certain datum plane of 407 feet; and (iii) Tract No. 313 which lies above such datum plane of 399 feet and which would be flooded or covered by the waters of the Coosa River and its tributaries should the level of such water be raised and backed up to that certain datum plane of 408 feet, all above mean sea level as established by the United States Coast and Geodetic Survey, as adjusted in January, 1955;

COOSA RIVER  
FLOODING  
CASE

3.

C. Together with all other rights as prayed for in the bill of complaint herein with regard to the above listed tracts, including the right of ingress and egress;

all such rights to vest in plaintiff without further order of this court upon plaintiff's depositing with the court the sums of money below specified which are equal to the appraisals made by plaintiff of the value of all the interests in land condemned herein:

<u>Tract No.</u>	<u>Amount</u>
313	\$1,535.00
348-1 & 2	910.00
275	3,400.00
383-1 & 2	1,062.00
Total	\$6,907.00

The various tract numbers appearing in this order have reference to the corresponding tract numbers appearing in the complaint and Exhibit A thereto, as amended by Amendments 1 through 4, inclusive, which have heretofore been allowed by the court.

This the 12<sup>th</sup> day of May, 1967.

TRACT NO. 237-1 & 2DESCRIPTION:

(a) The Southwest Quarter ( $SW\frac{1}{4}$ ) of Section 11, Township 20 South, Range 3 East, Talladega County, Alabama, less and except 10 acres across the East side of Southwest Quarter ( $SW\frac{1}{4}$ ) of said Section 11.

(b) The Northwest Quarter ( $NW\frac{1}{4}$ ) of Section 15, Township 20 South, Range 3 East, Talladega County, Alabama.

(c) A tract or parcel of land in the North Half of the Northeast Quarter ( $N\frac{1}{2}$  of  $NE\frac{1}{4}$ ) of Section 15, Township 20 South, Range 3 East, Talladega County, Alabama, being more particularly described as follows: Beginning at a point  $5\frac{1}{4}$  chains North of the Southeast Corner of the Northeast Quarter of the Northeast Quarter of Section 15, Township 20 South, Range 3 East; thence run West parallel to the North line of said quarter-quarter section to a ditch; thence along said ditch to the West boundary of the North Half of the Northeast Quarter ( $N\frac{1}{2}$  of  $NE\frac{1}{4}$ ) of said Section 15; thence North along the West line of said North Half of the Northeast Quarter ( $N\frac{1}{2}$  of  $NE\frac{1}{4}$ ) to a point which is 15 feet South of the Section line; thence East parallel to the North line of said Section 15 to the East boundary of said Section 15; thence South along the East boundary of said Section 15 to the point of beginning.

(d) A tract or parcel of land in the Southwest Quarter of Section 15, Township 20 South, Range 3 East, Talladega County, Alabama, being more particularly described as follows: Commence at the Northeast corner of the Southwest Quarter ( $SW\frac{1}{4}$ ) of Section 15, Township 20 South, Range 3 East; thence West along the North boundary of the Southwest Quarter ( $SW\frac{1}{4}$ ) of said Section 15 for 1030 feet to a point, said point being the point of beginning; thence from said point of beginning run in a Southwesterly direction along a ditch to its intersection with the West boundary of the Southwest Quarter ( $SW\frac{1}{4}$ ) of said Section 15; thence North along the West boundary of the Southwest Quarter of said Section 15 to the Northwest corner of the Southwest Quarter of said Section 15; thence East along the North boundary of the Southwest Quarter ( $SW\frac{1}{4}$ ) of said Section 15 to the point of beginning.

(e) A tract of land in the Northwest Quarter of Section 14,

BOOK 071 PAGE 281

CIVIL ACTION

NO. CA 66-769

MOTION FOR SUMMARY JUDGMENT BY PLAINTIFF

Plaintiff moves the Court to enter, pursuant to Rule 56 of the Federal Rules of Civil Procedure, a summary judgment to plaintiff's favor on the issue of the necessity of taking the lands described in the amended complaint herein as Tract No. 339 for the purposes and uses outlined in the complaint on the ground that there is no genuine issue as to any material fact relative to the necessity for the taking of such lands and that plaintiff is entitled to a ruling that such lands are necessary for the purposes stated as a matter of law.

This motion is based on the attached affidavit of Mr. S. R.

Hart, Jr.

Messrs. Wallace and Ellis, Attorneys at Law, Columbiana, Alabama 35051, represent the owners of such Tract No. 339, except for the interest therein owned by movant.

STATE OF ALABAMA }  
JEFFERSON COUNTY }

**AFFIDAVIT OF S. R. HART, JR.  
IN SUPPORT OF MOTION FOR SUMMARY JUDGMENT**

Before me, the undersigned authority in and for said County in said State, personally appeared S. R. Hart, Jr., who being known to me and by me first duly sworn, on his oath deposes and says as follows:

My name is S. R. Hart, Jr. I am a Vice President-Engineering for Alabama Power Company. Alabama Power Company is a corporation organized under the laws of Alabama and has its principal place of business in Birmingham, Alabama. I have been employed by or associated with Alabama Power Company for nineteen (19) years.

Alabama Power Company constructed its Lay Dam and Reservoir across the Coosa River under authority of the Act of Congress of March 4, 1907 (34 Stat. 1288) and acquired lands and interests in lands therefor to those certain datum planes of 382.2 feet (between River Miles 51.8 and 57.5) and 387.2 feet (between River Miles 57.5 and 73.2) above-mean sea level as established by the United States Coast and Geodetic Survey, as adjusted in January, 1955.

The engineering for and planning of Alabama Power Company's current development of the Coosa River, from a point thereon at Mayo's Bar in Floyd County, Georgia, to a point near Wetumpka, Alabama, which includes the enlargement of Lay Dam, the construction of four other dams, and certain other works, were performed in the Engineering and Construction Departments of Alabama Power Company. I have personal knowledge of such plans and the formulation and development thereof. These plans when completed were submitted to the Federal Power Commission which, with certain modifications, approved them and assigned thereto the designation of F.P.C. Project No. 2146.

F.P.C. Project No. 2146 includes specifications for various structures and component parts of Lay Dam and Reservoir which is being enlarged on the Coosa River in Chilton, Coosa, Shelby and Talladega Counties, Alabama. These

BOOK 071 PAGE 289

2.

improvements there provided for include the dam, reservoir, powerhouse, gated spillway, compacted earth reservoir retaining dikes, navigation facilities, substation, and transmission and communication facilities. There are other works appurtenant or accessory to the enlargement, maintenance and operation of Lay Dam and Reservoir, such as borrow and waste disposal areas, access roads, security areas, and others, which I shall not mention.

The new and enlarged reservoir will be constructed so that its normal water elevation at the dam, being approximately River Mile Post 51.8, will be 397 feet above mean sea level as established by the United States Coast and Geodetic Survey, as adjusted in January, 1955. Proceeding upstream from the dam, the normal reservoir elevation rises progressively from that at the dam, according to hydraulic gradient, to an elevation of 406 feet at River Mile Post 99.8, which is the upper end of the reservoir at the powerhouse of Logan Martin Dam, in St. Clair and Talladega Counties. During or after periods of heavy rainfall, either locally in the reservoir or in the drainage area affecting it, the water elevation of the reservoir may rise from time to time above the normal reservoir elevation into the flood easement area. The flood easement area begins at approximately River Mile Post 64 and at that point will be 398 feet, or one foot above normal reservoir elevation. Proceeding upstream from River Mile Post 64, the elevation of the flood easement area rises progressively, according to hydraulic gradient, to an elevation of 410 feet at River Mile Post 99.8 (which is the upper end of the reservoir), or four feet above normal reservoir elevation. The specific elevations, both for normal reservoir elevation and flood easement elevation, are shown on the description of Tract No. 339 attached to Amendment No. 8 to the amended complaint in this case and designated Exhibit A.

I have personal knowledge of the manner in which the structures and component parts of Lay Dam and Reservoir will be actually located on the Coosa River and the project lands adjoining it, and know how such improvements and the reservoir will be located with respect to the parcel of land described in

BOOK 071 PAGE 290

the amended complaint as Tract No. 339. These lands are sought to be condemned in this proceeding for use in connection with the reservoir. Attached to this affidavit, and made a part hereof, is a map or sketch showing this tract. Such tract will be affected by the waters of the reservoir in the manner shown on the map or sketch. Shown in blue on the map or sketch is the portion of the tract to be covered by the reservoir, when it is at its normal elevation, and shown in yellow is the portion of the tract to be covered when the reservoir is at flood easement elevation. The approximate acreage in the various portions of the tract is shown also. The elevations, or contour lines, shown on the map have been staked on the ground, and painted, on this tract.

In addition, it will be necessary to go on and across the lands of the tract owners, which will not be flooded, with men and equipment to clear the area of the tract which will be within the limits of the normal reservoir.

I have personal knowledge of the correctness of the above statements.

WILLIAM E. DAVIS  
CLERK, U. S. DISTRICT COURT.

BY: DEPUTY CLERK

MOTION FOR SUMMARY JUDGMENT BY PLAINTIFF

Plaintiff moves the Court to enter, pursuant to Rule 56 of the Federal Rules of Civil Procedure, a summary judgment to plaintiff's favor on the issue of the necessity of taking the lands described in the amended complaint herein as Tract No. 368-2 for the purposes and uses outlined in the complaint on the ground that there is no genuine issue as to any material fact relative to the necessity for the taking of such lands and that plaintiff is entitled to a ruling that such lands are necessary for the purposes stated as a matter of law.

This motion is based on the attached affidavit of Mr. S. R. Hart, Jr.

Messrs. Wallace and Ellis, Attorneys at Law, Columbiana, Alabama 35051, represent the owners of such Tract No. 368-2.

STATE OF ALABAMA }

JEFFERSON COUNTY }

**AFFIDAVIT OF S. R. HART, JR.  
IN SUPPORT OF MOTION FOR SUMMARY JUDGMENT**

Before me, the undersigned authority in and for said County in said State, personally appeared S. R. Hart, Jr., who being known to me and by me first duly sworn, on his oath deposes and says as follows:

My name is S. R. Hart, Jr. I am Vice President-Engineering for Alabama Power Company. Alabama Power Company is a corporation organized under the laws of Alabama and has its principal place of business in Birmingham, Alabama. I have been employed by or associated with Alabama Power Company for approximately twenty (20) years.

Alabama Power Company constructed its Lay Dam and Reservoir across the Coosa River under authority of the Act of Congress of March 4, 1907 (34 Stat. 1288) and acquired lands and interests in lands therefor to those certain datum planes of 382.2 feet (between River Miles 51.8 and 57.8) and 387.2 feet (between River Miles 57.5 and 73.2) above mean sea level as established by the United States Coast and Geodetic Survey, as adjusted in January, 1955.

The engineering for and planning of Alabama Power Company's current development of the Coosa River, from a point thereon at Mayo's Bar in Floyd County, Georgia, to a point near Wetumpka, Alabama, which includes the enlargement of Lay Dam, the construction of four other dams, and certain other works, were performed in the Engineering and Construction Departments of Alabama Power Company. I have personal knowledge of such plans and the formulation and development thereof. These plans when completed were submitted to the Federal Power Commission which, with certain modifications, approved them and assigned thereto the designation of F.P.C. Project No. 2146.

F.P.C. Project No. 2146 includes specifications for various structures and component parts of Lay Dam and Reservoir which is being enlarged on the Coosa River in Chilton, Coosa, Shelby and Talladega Counties, Alabama. These improvements there provided for include the dam, reservoir, powerhouse, gated spillway, compacted earth reservoir retaining dikes, navigation facilities, substation, and transmission and communication facilities. There

BOOK 071 PAGE 294

2.

are other works appurtenant or accessory to the enlargement, maintenance and operation of Lay Dam and Reservoir, such as borrow and waste disposal areas, access roads, security areas, and others which I shall not mention.

The new and enlarged reservoir was constructed so that its normal water elevation at the dam, being approximately River Mile Post 51.8, is 397 feet above mean sea level as established by the United States Coast and Geodetic Survey, as adjusted in January, 1955. Proceeding upstream from the dam, the normal reservoir elevation rises progressively from that at the dam, according to hydraulic gradient, to an elevation of 406 feet at River Mile Post 99.8, which is the upper end of the reservoir at the powerhouse of Logan Martin Dam, in St. Clair and Talladega Counties. During or after periods of heavy rainfall, either locally in the reservoir or in the drainage area affecting it, the water elevation of the reservoir may rise from time to time above the normal reservoir elevation into the flood easement area. The flood easement area begins at approximately River Mile Post 64 and at that point will be 398 feet, or one foot above normal reservoir elevation. Proceeding upstream from River Mile Post 64, the elevation of the flood easement area rises progressively, according to hydraulic gradient, to an elevation of 410 feet at River Mile Post 99.8 (which is the upper end of the reservoir), or four feet above normal reservoir elevation. The specific elevations, both for normal reservoir elevation and flood easement elevation, are shown on the description of Tract No. 368-2 attached to Amendment No. 11 to the amended complaint in this case and designated Exhibit A.

I have personal knowledge of the manner in which the structures and component parts of Lay Dam and Reservoir will be actually located on the Coosa River and the project lands adjoining it, and know how such improvements and the reservoir will be located with respect to the parcel of land described in the amended complaint as Tract No. 368-2. These lands are sought to be condemned in this proceeding for use in connection with the reservoir. Attached to this affidavit, and made a part hereof, is a map or sketch showing this tract. Such tract will be affected by

the waters of the reservoir in the manner shown on the map or sketch. Shown in blue on the map or sketch is the portion of the tract to be covered by the reservoir, when it is at its normal elevation, and shown in yellow is the portion of the tract to be covered when the reservoir is at flood easement elevation. The approximate acreage in the various portions of the tract is shown also.

I have personal knowledge of the correctness of the above statements.

CIVIL ACTION NO. CA 66-769

FILED IN CLERK'S OFFICE  
NORTHERN DISTRICT OF ALABAMA

APR 3 1970

WILLIAM E. DAVIS  
CLERK, U.S. DISTRICT COURT  
NORTHERN DISTRICT OF ALABAMA  
DEPUTY CLERK

ORDER ON MOTIONS FOR SUMMARY JUDGMENT  
AND JUDGMENT CONDEMNING LAND

Two motions having been made by the plaintiff for summary judgment in its favor on the issue of the necessity of taking the lands described in the amended complaint herein, one such motion having been filed June 24, 1968 dealing with Tract No. 339 described in Amendment No. 8 to the complaint and the other such motion having been filed April 1, 1970 dealing with Tract No. 368-2 described in Amendment 11 to the complaint, for the purposes and uses outlined in Paragraphs 3 and 4 of the complaint on the ground that there is no genuine issue as to any material fact relative to the necessity for the taking of such lands and that plaintiff is entitled to judgment on such issue as a matter of law; and

The Court, upon consideration of the objections and defenses raised by the answers filed on behalf of the respective owners of such Tract No. 339 and Tract No. 368-2, is of the opinion that such objections and defenses are not proper objections or defenses to the complaint, and it is, therefore ordered that the same are hereby overruled and denied.

Now, on considering the two affidavits of S. R. Hart, Jr. filed in support of such motions for summary judgment, which affidavits establish in the opinion of the Court that plaintiff needs Tract No. 339 and Tract No. 368-2 for the purposes stated in the complaint; and

It appearing to the Court that there is no genuine issue as to any material fact, except as to the amount of damages to which the condemnees herein are entitled, and the Court having concluded after due deliberation having been had, that plaintiff is entitled to summary judgment

Book 071 Page 299-A

A. Fee simple title to that portion of Tract No. 368-2 lying below that certain datum plane of 402 feet above mean sea level as established by the United States Coast and Geodetic Survey, as adjusted in January, 1955;

B. The right to flood or cover with water at intervals from time to time, and the right to prevent the construction, use, occupation or habitation of any structures except fences, docks, wharves and boathouses not capable of human habitation (including the right to tear down or remove any such prohibited structures) on, that portion of Tract No. 368-2 which lies above such datum plane of 402 feet and which would be flooded or covered by the waters of the Coosa River and its tributaries should the level of such water be raised and backed up to that certain datum plane of 408 feet above mean sea level as established by the United States Coast and Geodetic Survey, as adjusted in January, 1955;

C. Together with all other rights as prayed for in the bill of complaint herein with regard to the above listed tracts, including the right of ingress and egress; all such rights to vest in plaintiff without further order of this Court upon plaintiff's depositing with the Court the \$275.00 above indicated which is equal to the appraisals made by plaintiff of the value of all the interests in land condemned herein as Tract No. 368-2.

The tract numbers appearing in this order have reference to the corresponding tract numbers appearing in the complaint and Exhibit A thereto, as amended by Amendments 1 through 11, inclusive, which have heretofore been allowed by the Court.

This the 3rd day of April, 1970.
