NOTE: All easements on this map are for public utilities, sanitary sewers, storm sewers, storm ditches, and may be used for such purposes to serve the property both within and without the subdivision.

NOTE: "Sink Hole Prone Area -The subdivision shown hereon, including lots and streets, lies in an area where natural lime sinks may occur. Shelby County, the Shelby County Engineer, the Shelby County Planning Commission and the individual members thereof, and all other agents, servants, or employees of Shelby County, Alabama, make no representations whatsoever that the subdivision lots and streets are safe or suitable for residential construction, or for any other purposes whatsoever. The subdivision is underlain by limestone and thus may be subject to lime sink activity even though there is no visible evidence of sink holes on this property."

NOTE: Elevation of all manitary sewer laterals to each lot should be verified by builder prior to setting lowest floor of residence to be serviced.

NOTE: O Denotes iron pins installed at lot corners and curve points:

NOTE: All lots have a minimum 25' front building setback line and a minimum 20' rear setback line.
