NOTES:

All easements on this map are for public utilities, sanitary sewers, storm sewers, storm ditches, and may be used for such purposes to serve the property both within and without the subdivision.

"Sink Hole Prone Area - The subdivision shown hereon, including lots and streets, lies in an area where natural line sinks may occur. Shelby County, the Shelby County Engineer, the Shelby County Planning Commission and the individual members thereof, and all other agents, servants, or employees of Shelby County, Alabama, and the professional land surveyor whose name is signed to this map and whose seal appears hereon, make no representations whatsoever that the subdivision lots and streets are safe or suitable for residential construction, or for any other purposes whatsoever. The subdivision is underlain by limestone and thus may be subject to line sink activity even though there is no visible evidence of sink holes on this property."

Elevation of all sanitary sewer laterals to each lot should be verified by builder prior to setting lowest floor of residence to be serviced.

All potential purchasers prior to executing a contract shall be given copies of the Geotechnical and Geological Engineering Evaluation and made aware of recommendations therein regarding structure location, construction, and lot drainage.

No ground water pumping shall be allowed.

"Contractor and/or developer are responsible for providing building sites free of drainage problems."

"Shelby County is not responsible for the maintenance of any easements shown on this plat outside of the public right-of-way."
