- Q** **Question 10** **Product of Chemical reactions.**

**A** This question is best suited for students who have learned about the reaction of acids and bases.

**B** Students should be encouraged to answer this question by referring to their knowledge of acids and bases.

**C** Students should be constantly informed of the reaction between acids and bases throughout the year.

**D** Students should be prepared at the beginning of the school year to which a酸性 reaction will be performed.

**E** Students will be given a choice of either following an experiment or writing an essay.

**F** It is unlikely that this question has been asked.
