State of Alabama Shelby County)

by me first duly sworn, deposes and says that he is now 55 years of age and has been engaged in the business of making abstracts in this county for mare than 20 years and is familiar with the different surveys and maps of the different towns in this county and especially of the surveys of Calera in said County, and he is familiar with the records of dedds, mortgages and maps of the said surveys, and he has seen what is generally known as the J.H.Dunetan's map of Calera, that said map was never recorded in the Probate Office of said county that affiant has ever seen, but was an old printed map, apparently made for advertising purposes, and indicated on its face that it was made by John H. Dunstan, Engineer, and is dated October 1st, 1886, and shows lots of land in and around Calera in said County!

Affiant further says that he has seen a blue print map which is pasted on the face of a deed book 71 on page 1 in the probate of fie of said county and which map has marked on it "By G.B.Pickett C E.", and that as far as lots 15 and 16 in block 267 in Calera is concerned that the two said maps are identical, except that the blue-print map does not show the length of the lots as they run back to the alley in the rear, but both maps do show that the said lots front 50 feet each on the north side of 20th Avenue and extend back north to the alley, and the J H Dunstan map shows the lots to be 150 feet in length back to the alley, the blue print map does not show the width of the alley but the Dunstan map shows thetalley to be 20 feet wide, and that the east line of said lot 15 lies 100 feet west of the west line of 14th Street as shown by both of said maps.
