Re: NW $\frac{1}{4}$  of NW $\frac{1}{4}$  Sec. 12, Tp 21S, R3W, Shelby County, Ala.  
Lying East Of Railroad

Dear Mr. Harrison:

This is in answer to your letter of May 3, 1965 concerning a lot in the above acreage which you say belongs to Annie M. Stephens Smith, bordering on the Montgomery highway.

You wanted me to let you know whether I would correct my assessment to omit the part of the said 40 lying east of the railroad. After studying the status of the acreage in the NW $\frac{1}{4}$  of NW $\frac{1}{4}$  of the said Sec. 12 east of the railroad, I instructed my agent before the first of the year to omit that as well as several other parcels of property from all future assessments (unless there were future transactions to change the situation). In other words, we had carried on our assessment sheets for many years several parcels of property near and/or adjoining our validly held lands, to which we did not have good title.

I believe you will find our next assessment will reflect this, including your own client's piece of property above.

I trust this will answer and conclude the question brought up in your letter.

Yours very truly,

*Cheney*
