TO HAVE AND TO HOLD unto the said Grantee, its successors and assigns forever; SUBJECT, however, to such easements as may exist over, under, upon, along, or across said right of way for railroads, electric power transmission lines, telephone lines, telegraph lines, pipelines, and public or private roads.

The conveyance of the above-described easement is made upon the covenant and condition that Grantor, its successors or assigns, shall have the right to mine and remove the coal and other minerals contained in said land, or in any other lands, without leaving supports necessary for sustaining the surface of said land or for preventing damage thereto; and that no right of action on account of damage to said roadway and facilities therefor, or to structures or facilities constructed on said right of way resulting from said mining operations shall ever accrue to or be asserted by the Grantee, its successors or assigns, this conveyance being made expressly subject to all such damage either past or future; and this condition shall constitute a covenant running with the land.

This conveyance is made upon the further covenant and condition that (1) Said Grantor, or its successors and assigns, shall have the right to install and/or maintain within the boundaries of the right of way, easement for which is herein granted, existing or future underground haulageways, electric power transmission lines, telephone or telegraph lines, pipelines, railroad tracks, and roads or ways of any description at any point whatsoever, either at grade, above grade, or below grade, provided that the exercise of such rights shall not interfere unreasonably with the use of the public highway, for which easement for right of way is herein granted; (2) Adequate drainage for the surface of said right of way, including borrow pits and excavations thereon shall be provided by said Grantee, or its successors and/or assigns; and (3) The easement herein granted shall terminate and be extinguished in the event of the abandonment of the use of said right of way for public road purposes during a continuous period of twelve (12) months.
