THE REAL PROPERTY AND SECURITY OF SECURITY AND SECURITY A

Prior to the issuance of a septic tank permit on additional percolation test and additional soil boring in the area selected for the disposal field will be required on the following lots, and these tests will determine suitability of the soil for a field. The lots affected are: I-A and 3-A. Soil borings to a depth of 6 feet must indicate the absence of rock on these lots. Percolation rates in the area of the disposal field must be less than 60 minutes per inch.

All easements shown on this map are for public utilities, sanitary sewers, storm sewers, storm ditches, and may be used for such purposes to serve property both within and without this subdivision. No construction shall be started on any lot until individual plot plans showing proposed house, driveways, walks, and sewage dispusal systems have been submitted to and approved by the Shelby County Health Department.
