Rt. 2
Alabaster, Alabama 35007

Dear Messrs. Cooley:

Mrs. B. W. Carter has come in to my office to talk to me regarding a deed we prepared to you from her, covering certain land bordering U. S. Highway 31. The property conveyed began on the East right-of-way line of U. S. Highway 31 and contained the following clause thereafter:

"thence run in a southerly direction along the east right-of-way of the present U. S. Highway 31 at a distance of 64 feet to a point on the North line of a dirt road leading to property of Hershel Carter; thence run in a northeasterly direction along the Northerly right-of-way line of said dirt road a distance of 196 feet."

We, of course, did not know where the property was situated on the ground and someone gave us the distance of 64 feet along U. S. Highway 31. However, where a deed contains a physical boundary such as a road, creek or tree, to which a line is run, the courts have held that the physical marker prevails over the distance that is shown in the deed. The reason for this is that many times a distance can be measured wrong. Mrs. Carter says she only conveyed to you the property which she owned up to the North line of said road and that since the date of the deed, the road has been paved. You, of course, would only be entitled to the land North of the road, according to the deed which you obtained. I know that neither of you want a law suit in connection with this matter and feel there is not any necessity for a law suit as you, as well as Mrs. Carter, agree that the North line of the road would be your South boundary line.

If you would like to discuss this with me, please call my office and we will arrange an appointment for you.
