Hence, each lot owner in Weatherly shall observe the following restrictions regarding the removal and restoration of vegetation: no more than 50% of the trees may be removed; the owner must replant dead or diseased trees; any clearingcutting of pastureland must be approved by the Architectural Control Committee and must be located behind the home and no closer than 40 feet of the boundary line.

The same sightline limitations shall apply on any lot within 10 feet from the intersection of a street property line with the edge of a driveway or alley pavement. No tree shall be permitted to remain within such distances of such intersections unless the foliage line is maintained at sufficient heights to prevent obstruction of such sightlines.

28. Once the construction of any building is begun, work thereon must be prosecuted diligently and continuously and must be completed within 18 months.

29. During all construction, all vehicles, including those delivering supplies, must enter the building lot on the driveway only as approved by the undersigned so as not to unnecessarily damage trees, street paving and curbs. Any damage not repaired by the contractor will be repaired by the undersigned (after 10 days written notice) and will be charged to the contractor (or Owner) at a reasonable cost for such services, which charge shall constitute a lien upon such Lot enforceable by appropriate proceedings at law or equity. During construction, all builders must keep the homes, garages and building sites clean. All building debris, stumps, trees, etc. must be removed from each building lot by the builder as often as necessary to keep the house and Lot attractive.
