have first been submitted to and approved by the Architectural Control Committee (herein defined). Such plans and specifications shall be in such form and shall contain such information, as may be reasonably required by the Architectural Control Committee and shall include, but not necessarily be limited to, (a) a site plan showing the location, height, and exterior design (including a summary of all proposed materials together with samples of exterior materials and paint colors) of all buildings and improvements proposed to be constructed on the Property, (b) a grading, storm drainage, and landscaping plan with respect to the Property, and (c) a statement of the proposed use of the improvements to be constructed on the Property. The plans shall be submitted to the Architectural Control Committee, at least ten business days prior to the date construction is scheduled to commence and the Architectural Control Committee shall be entitled to retain said plans for their records. Modifications to such plans may be submitted from time to time to the Architectural Control Committee, for its approval, with respect to any significant changes in the Plans, after same have initially been approved.

2.02 Architectural Control Committee. The Architectural Control Committee (the "Committee") is composed of Frank Kovach, Jr. and Billy D. Eddleman. A majority of the Committee may designate a representative to act for it. In the event of death or resignation of any member of the Committee, the remaining member shall have full authority to designate a successor. At any

time, the Declarant shall have the power, through a duly recorded written instrument, to change the membership of the Committee or to withdraw from the Committee or restore to it any of its powers and duties.

The written permit shall be executed in duplicate with one copy to be retained by the Committee and one copy to be retained by the applicant.

(a) The scope of review by the Committee shall be limited to the proposed use and exterior appearance only. THE DECLARANT DOES NOT ASSUME OR ACCEPT BY THE FILING HEREOF ANY RESPONSIBILITY OR AUTHORITY TO REVIEW FOR STRUCTURAL SOUNDNESS, COMPLIANCE WITH BUILDING OR ZONING CODES OR STANDARDS, OR ANY OTHER FACTORS.

(i) failure to include information in such plans and specifications as may have been reasonably requested by the Committee;

(ii) failure of such plans and specifications to comply with the architectural criteria set forth in Article III of this Declaration;

(iv) failure of the drainage plan to comply with the sedimentation and erosion control plan for the Property approved by the Water Works and Sewer Board of the City of Birmingham.

(c) Approval of any plans and specifications submitted to the Committee shall terminate and be rendered void if construction is not begun within one year after the date of the certificate evidencing such approval unless such one year period is extended by the Committee in which event the extended time period shall be applicable.

(d) In any case where the Committee shall disapprove any plans and specifications submitted hereunder, or shall approve the same only as modified or upon specified conditions, such disapproval or qualified approval shall be accompanied by a statement specifying the grounds upon which such action was based. In any such case the Committee shall, if requested, make reasonable efforts to assist and advise the applicant in order that an acceptable proposal can be prepared and submitted for approval.

2.05 Retention of Copy of Plans. Upon approval by the Committee of any plans and specifications submitted hereunder, two copies of such plans and specifications, as approved, shall be deposited with the Committee, one copy shall be retained for the permanent records of the Committee, and one copy of such plans and

specifications bearing such approval, in writing, shall be returned to the applicant submitting the same.

2.06 Failure to Obtain Approval. If any structure or improvement shall be erected upon the Property otherwise than substantially in accordance with plans and specifications approved by the Committee pursuant to the provisions hereof, such erection shall be deemed to have been undertaken in violation of this covenant, and without the approval required herein, and, upon written notice from the Committee, any such structure or improvement so altered, erected, or placed upon the Property in violation hereof shall be removed or realtered so as to extinguish such violation at the expense of the Owner of the Property. Notwithstanding the aforesaid, after the expiration of one year from completion of any such improvement or structure, such improvement or structure shall be deemed to comply with all the provisions hereof unless notice to the contrary shall have been recorded in the Office of the Judge of Probate of Shelby County, Alabama, or legal proceedings shall have been instituted to enforce such compliance.

If fifteen (15) days after the notice of such a violation the owner of the property upon which such violation exists shall not have taken reasonable steps toward the removal or termination of the same, the Committee shall have the right, through its agents and employees, to enter upon such Property and to take such steps as may be reasonably necessary to extinguish such violation and the cost thereof shall be a binding, personal obligation of such

owner as well as a lien (enforceable in the same manner as a mortgage) upon the property in question. The lien provided in this covenant shall not be valid as against a bona fide purchaser (or bona fide mortgagee) of the property in question unless a suit to enforce said lien shall have been filed in a court of record in Shelby County prior to the recordation among the land records of Shelby County of the deed (or mortgage) conveying the property in question to such purchaser (or subjecting the same to such mortgage).

2.07 Certificate of Compliance. Upon completion of the construction of any structure or improvement substantially in accordance with plans and specifications approved by the Committee, the Committee shall, upon written request of the owner thereof, issue a certificate of compliance in form suitable for recordation, identifying such structure or improvement and the property on which such structure or improvement is placed, and stating the plans and specifications, the location of such structure or improvement and the use or uses to be conducted thereon have been approved and that such structure or improvement complies with the requirements of the Committee. Preparation and recording of such certificate shall be at the expense of such owner. Any certificate of compliance issued in accordance with the provisions of this Section 2.07 shall be prima facie evidence of the facts therein stated, and as to any purchaser or encumbrancer in good faith and for value, or as to any title insurer, such certificate shall be conclusive evidence that all

structures or improvements on the Property, and the use or uses described therein comply with all the requirements of these covenants.

2.08 Inspection Rights. Any agent of the Committee may at any reasonable time or times enter upon and inspect the exterior of the Property and the exterior of any improvements thereon for the purpose of ascertaining whether the construction of structures and improvements thereon are in compliance with the provisions hereof; and neither the Committee nor any such agent shall be deemed to have committed a trespass or other wrongful act by reason of such entry or inspection.
