4. ADJUSTABLE INTEREST RATE AND MONTHLY PAYMENT CHANGES

(A) Change Dates

The initial fixed interest rate I will pay will change on the first day of January which is called the "Change Date."

(B) The Index

At the Change Date, my interest rate will be based on an Index. The "Index" is the weekly average yield on United States Treasury securities adjusted to a constant maturity of 10 years, as made available by the Federal Reserve Board. The most recent Index figure available as of the date 45 days before the Change Date is called the "Current Index."

If the Index is no longer available, the Note Holder will choose a new index that is based upon comparable information. The Note Holder will give me notice of this choice.

(C) Calculation of Change

Before the Change Date, the Note Holder will calculate my new interest rate by adding

two and one-half percentage point(s) (%) to the Current 2.5 Index. The Note Holder will then round the result of this addition to the nearest one-eighth of one percentage point (0.125%). Subject to the limit stated in Section 4(D) below, this rounded amount will be my new interest rate until the Maturity Date.

The Note Holder will then determine the amount of the monthly payment that would be sufficient to repay the unpaid principal that I am expected to owe at the Change Date in full on the Maturity Date at my new interest rate in substantially equal payments. The result of this calculation will be the new amount of my monthly payment.

(D) Limits on Interest Rate Change

The interest rate I am required to pay at the Change Date will not be greater than which is called the "Maximum Rate".

(F) Notice of Change

The Note Holder will deliver or mail to me a notice of any change in my interest rate and the amount of my monthly payment before the effective date of any change.
