FINAL CONDITIONS OF APPROVAL

NAME OF SUBDIVISION: FOREST PARKS 6TH PHASE 1

1. No construction of a dwelling shall begin until a permit to install an onsite sewage disposal system has been issued by this office.
2. A permit to install will be denied, or may be revoked if already issued, if conditions are found on any lot that could, in the opinion of the Health Department, cause the onsite sewage system to malfunction or which could restraint the proper operation of the system.
3. Issuance of a permit to install an onsite sewage system may follow submission of a properly prepared plot plan in accordance with provisions in Rules of State Board of Health Chapter 420-3-1 Onsite Sewage Disposal and Subdivision-Onsite Systems, Water Supplies, and Solid Waste Management.
4. Septic tanks and disposal field lines may be installed only by persons holding a current Permit to Install Septic Tanks in Shelby County.
5. Final Health Department approval is contingent upon approval by the Shelby County Planning Commission.
6. When an indication of approval is required prior to the subdivision being recorded in the office of the Judge of Probate, a statement similar to the following is recommended to be affixed to the plat prior to signing:

   "This subdivision meets the approval of the Shelby County Health Department subject to certain conditions of approval and/or lot deletions on file with the Shelby County Health Department, which conditions are made a part of this approval as if set out hereon".

7. The following lots are approved with the primary disposal field site located at the perc test and soil bore locations shown on the Final Map with the following restrictions.

Lot #	maximum field line trench depths in inches	other
633	12=#	25 foot setback from road cuts
634	18=	

1728 Morgan Park Drive, Pelham, Alabama 35124-1059
205/733-0878

Lot #	maximum field line trench depths in inches	other
635	22=	
636	18=#	
637	26=	25 foot setback from road cuts

* denotes ground water observed in soil bore
\+ ground water indicators observed in soil bore
\# due to depth of rock
= restricted due to depth of perc test
~ restricted due to certain clays, pans, fragipans or others

8. Should the primary disposal location for any lot be relocated to another area of the lot such that the perc test and soil bore would not be within the boundary of the primary disposal field an additional spoil bore and perc test will be required. The above trench depth restrictions would be changed to represent the limitations imposed at the new site.
9. The following lots are withheld

   none

   All lots withheld may be submitted to the Shelby County Health Department when either by design or relocation of sewage systems the limitations listed above have been overcome in accordance with Alabama's Onsite Sewage Disposal Rules 420-3-1. Appendix H and Appendix I of the Rules should be used to design systems to overcome limitations imposed by groundwater, restrictive layers or slopes greater than 25%.
10. The soil bore for record on each lot should remain open if this soil bore and percolation test site are located at the site of the proposed primary field line area until a permit to install an onsite sewage system for that lot has been issued.
