

# AGREEMENT FOR DOMESTIC WATER LINE EASEMENT

STATE ALABAMA )

COUNTY OF SHELBY )

THIS AGREEMENT, made and entered into on this the 7<sup>th</sup> day of JUNE, 1996, by and between **DRAVO LIME COMPANY**, a Delaware corporation (the "Dravo"), and **ENVIRO BUILD, INC.**, an Alabama corporation (the "Grantee").

WHEREAS, Grantee desires to obtain from Dravo both an easement for a domestic water line across lands owned by DRAVO in order that the Grantee can install and maintain a domestic water line.

THEREFORE, be it known by these presents that, in consideration of the mutual covenants and promises between the parties hereto, it is hereby agreed as follows:

1. Dravo hereby grants to the Grantee the easement lying in the boundaries of the real property located in Shelby County, Alabama which is more particularly described in Exhibit "A" attached hereto and made a part hereof, for installation of a domestic water line and for no other purposes, except as expressly set forth herein.
2. Dravo grants the Grantee the right to enter the easement to construct said domestic water line, and to perform maintenance and repair activities on the water line at the Grantee's sole expense as deemed necessary by the Grantee.
3. Dravo retains the right to use the lands within the easement as Dravo desires, except as noted herein. Dravo agrees not to use the lands within the easement in a manner which will adversely affect the domestic water line. Dravo further agrees, except as noted herein, not to construct any permanent structure within the lands in the easement. After the domestic water line has been installed, Dravo may construct a fence drainage pipe, or roadway across the easement as Dravo deems necessary.
4. Dravo grants to the Grantee, at Grantee's sole expenses, the right to remove trees, shrubs, or other vegetation located within the easement as required for the construction and/or maintenance and repair activities associated with the domestic water line. The Grantee shall require that any construction, maintenance and repair work within the easement be done in a workmanlike manner and that any damage to the Dravo's property which results from said construction, maintenance and/or repair activities will be corrected by the Grantee, at Grantee's sole expense.

5. The Grantee shall indemnify and hold Dravo harmless from any liability or damage arising from the use or installation of the domestic water line, any loss, damages, claims or causes of action arising out of the installation or use domestic water line, or any construction, maintenance and repair operations thereon or within the easement.
6. The Grantee understands that the domestic water line will be located in an area of where mining and quarrying activities have taken place and sinkholes have occurred; accordingly, the Grantee assumes the risks of installing the domestic water line in the easement and will construct the domestic water line in the easement and will construct the domestic water line to engineering standards necessary to withstand the conditions of the area.
7. The mutual covenants and promises between the parties hereto shall all run with the land and shall be binding on Dravo and the Grantee, their heirs, successors, and assigns.

IN WITNESS WHEREOF, Dravo and the Grantee hereby agree to be bound by the terms and conditions of this Agreement, and have caused this Agreement to be executed under seal by their duly authorized officers on the date first above written.
