KNOW ALL MEN BY THESE PRESENTS:

That **THE CITY OF BIRMINGHAM**, a municipal corporation under the laws of the State of Alabama (herein called the "City"), makes the following recital of facts as the basis for this conveyance:

- a. The City now owns and operates certain water reservoirs and filtration plants and water supply, transmission and distribution systems and various related properties (herein together called the "Water System") and certain sewage treatment plants and wastewater collection systems (herein together called the "Sewer System") (the "Water System" and the "Sewer System" collectively referred to as the "Systems") located within Jefferson County and certain adjacent counties. The Systems were previously owned and operated by The Water Works and Sewer Board of the City of Birmingham (hereinafter called the "Board").
- b. The Board was incorporated pursuant to authorization by the governing body of the City.
- c. The City has heretofore incurred certain indebtedness in connection with its ownership, operation and expansion of the Systems, including various series of warrants payable from revenues from the Systems (herein together called the "Outstanding Warrants").
- d. The Board has offered to take possession of the Systems and to assume the indebtedness of the Board evidenced by the Outstanding Warrants, and it is appropriate, desirable and in the best interests of the residents of the City and the surrounding territory for the City to convey the Systems to the Board.
- e. The Board of Directors of the Board has agreed that the Systems, and all such other properties and assets of the City relating to the Systems, and which were previously owned by the Board and conveyed to the City on September 2, 1998, or any property acquired by the City since September 2, 1998 for the operation of the Systems now be conveyed to the Board.
