To Whom It May Concern:

This letter is to inform you and any other parties involved that I give permission to Token Investments to use my parking lot driveway as an entrance to the Carwash that is being constructed next to me. They also, have permission to run the sewer connection for the Carwash through the back of my property.

I have no problem having this recorded with my deed if it is required by the City.

Sincerely,

Ted S. Odom
President/Owner
