WHEREAS, subject to the terms and provisions hereof, the Company hereby consents to the assignment of the Assigned Capacity to Assignee and agrees to permit the connection of Assignee's sanitary sewer Service Line to the Company's Trunk Line.

NOW THEREFORE, in consideration of the mutual promises and agreements herein contained, the Assignor, the Assignee and the Company hereby agree as follows:

Assignee hereby assumes any and all obligations, liabilities and duties of Assignor with regard to the Assigned Capacity and agrees to comply with the terms and provisions hereof and of the SSA with respect to the Assigned Capacity.

3. **Additional Terms and Provisions:**

(a) The Company agrees that Assignee may connect Assignee's Service Line to the Company's Trunk Line, subject to the terms, provisions, and limitations set out in the SSA.

- (f) The Company may disconnect Assignee's Service Line from the Company's Trunk Line for Assignee's failure to pay any sums due and payable to the Company, or if Assignee violates any of the terms or provisions of the SSA.
- (g) Assignee agrees that no type or volume of sewage will be discharged into the Company's Trunk Line, except as specifically identified by Assignee herein or as provided in the SSA.
- (h) Assignee shall comply with and be bound by the terms and provisions of the SSA. Assignee agrees to pay the Treatment Reservation Fee and the Treatment Charges for the Assigned Capacity at such rates set forth in the SSA. Assignee further agrees to pay such penalties and surcharges for Assignee's noncompliance with or default under the terms and provisions of the SSA, or which may be hereafter adopted and imposed by the Company.
- (i) The Treatment Reservation Fee of **\$8,751.75** (\$16.67/gpd X 525 gpd) shall be due and payable by Assignee to the Company upon execution hereof. The monthly Treatment Charge shall commence beginning with the month following the calendar month in which this Assignment is executed, regardless of when Assignee connects its Service Line to the Company's Trunk Line.
- (j) The Treatment Reservation Fee is based upon an estimated daily volume of sewage to be received into the Company's Trunk Line from Assignee's Service Line. The Company reserves the right, at the Company's option, to meter the actual volume of sewage generated by Assignee. In the event the actual volume is greater than the volume originally estimated, the Company may charge an additional Treatment Reservation Fee based upon the actual volume. Assignee shall not allow any volume of sewage to enter the Company's Trunk Line which exceeds the volume for which Assignee has paid a Treatment Reservation Fee.
