STATE OF ALABAMA }

W.E. No. 61700-08-0055-600

COUNTY OF Shelby }

Parcel No. 70175598

KNOW ALL MEN BY THESE PRESENTS, THAT: WHEREAS, the "Grantor", (whether one or more) are owners of record of the following described real estate in Shelby County, Alabama, to wit: BALLANTRAE STONEYKIRK-PHASE 4 (the "Subdivision") as shown on the plat or drawing attached and incorporated herein by reference, which Grantor plans to record in the Office of the Judge of Probate, Shelby County, Alabama (the "Property") (NW 1/4 of ----- 1/4 of Section 28, Township 20S, Range 2W) and,

WHEREAS, the said Grantor desires to grant to Alabama Power Company, (the "Company") an easement for underground electrical facilities and to establish and place the Subdivision under certain restrictive covenants to insure the use of the property for attractive residential purposes and thereby to secure to each lot owner the same advantages insured to other lot owners.

NOW, THEREFORE, The Grantor, for and in consideration of *One and No/100 Dollars (\$1.00)*, and other good and valuable consideration, to Grantor in hand paid by the Company, the receipt of which is hereby acknowledged, does hereby grant to Company, its successors and assigns, the right to construct, install, operate, maintain and replace, along a route to be selected by the Company (generally shown on the attached drawing), its successors or assigns, all conduits, cables, transformers, and other appliances and facilities (above ground and below ground) useful or necessary in connection therewith, for the underground transmission and distribution of electric power upon, under and across the Property.

Together with all the rights and privileges necessary or convenient for the full enjoyment or use thereof, including the right of ingress and egress to and from said facilities and the right to excavate for installation, replacement, repair and removal thereof; and also the right to cut and keep clear any and all obstructions or obstacles of whatever character on, under and above said facilities.

TO HAVE AND TO HOLD such easement to the Company, its successors and assigns, forever.

And, the undersigned Grantor further does hereby adopt the following conditions, restrictions, covenants and limitations which shall apply in their entirety to all lots in the said Subdivision and shall run with the title to said property, and which shall be included in any conveyance of title to any or all of said lots in said subdivision:

1. The owners of lots within the Subdivision will not erect or grant to any person, firm or corporation the right, license or privilege to erect or use or permit the use of overhead wires, poles or overhead facilities of any kind for electrical, telephone, or cable television service on said real estate (except such poles and overhead facilities as may be required at those places where distribution facilities enter and leave said subdivision, or existing and/or future overhead transmission or communication facilities on existing or future Alabama Power Company rights of way). Nothing herein shall be construed to prohibit overhead street lighting, or ornamental yard lighting, where serviced by underground wires or cables.

2. In order to beautify said Subdivision for the benefit of all lot owners and permit Alabama Power Company to install underground electric service to each house in said Subdivision for the mutual benefit of all lot owners therein, no owner of any lot within said Subdivision will commence construction of any house on any lot until such owner (1) notifies Alabama Power Company that such construction is proposed, (2) grants in writing to Alabama Power Company such rights and easements as Alabama Power Company deems necessary in connection with its construction, operation, maintenance, replacement and removal of underground service laterals of each lot, and (3) otherwise complies with the Rules and Regulations for Underground Residential Distribution on file with and approved by the Alabama Public Service Commission. Further, no plants, shrubs, fences, walls or other obstructions shall be placed in front of or within three (3) feet of any side of any pad-mounted equipment and Alabama Power Company shall not be liable for any damages to or destruction of any shrubs, trees, flowers, grass or other plants caused by the equipment or employees of the Company or its contractors engaged in the construction, operation, maintenance, replacement or removal of the Company's facilities. Appropriate meter locations must be obtained from Alabama Power Company prior to installing or relocating service entrance facilities and associated internal wiring. Owners must install meter sockets and service risers in accordance with the Company's specifications.

3. Alabama Power Company, its successors and assigns, will retain title to all underground facilities installed by the Company or its contractors, including but not limited to the service lateral serving each said house, and said service entrance facilities provided by Alabama Power Company will not in any way be considered a fixture or fixtures and thereby a part of said real estate, but will remain personal property belonging to Alabama Power Company, its successors and assigns, and will be subject to removal by Alabama Power Company, its successors and assigns, in accordance with applicable Rules and Regulations filed with and approved by the Alabama Public Service Commission.

4. These covenants and restrictions touch and concern and benefit the land and shall run with the land and shall be binding on Alabama Power Company, the undersigned, their respective heirs, successors and assigns. Invalidity of any one of the foregoing covenants and restrictions shall in no way affect any other provision contained herein.

GENERAL NOTES

1. PRECAST COLLARS ARE AVAILABLE FROM THE MANUFACTURER IN 6", 12", 18" AND 24" HEIGHTS. COLLAR HEIGHT SHOULD BE SPECIFIED ON ORDERING MANHOLES. IF NOT SPECIFIED A 12" COLLAR WILL BE PROVIDED.
2. A BRICK AND MORTAR LAYER SHOULD BE INSTALLED BETWEEN THE MANHOLE COVER RING AND THE PRECAST COLLAR TO ALLOW FOR LEVELING OF COVER AND TO ALLOW FOR ADJUSTMENTS TO THE RING DUE TO FUTURE GROUND CHANGES. A MINIMUM OF THREE LAYERS OF BRICKS IS ALLOWED.
3. DEPTH DIMENSIONS SHOWN ARE TYPICAL. SPECIFIC DEPTHS WILL DEPEND ON PRECAST COLLAR HEIGHT USED.
4. THE FINAL GROUND SHOULD SLOPE AWAY FROM MANHOLE OPENING IF POSSIBLE TO PREVENT WATER FROM BEING FUNNELED INTO MANHOLE.
5. TWO 8" DIA. DUCT ENDS FOR 5" DIA. DUCTS WILL BE PROVIDED ON EACH SIDE WALL AND ONE 12" DIA. DUCT END FOR 12" DIA. DUCTS WILL BE PROVIDED ON EACH END WALL. THE DISTRIBUTION OF DUCTS FOR SPECIFIC OTHER DUCT ARRANGEMENTS AND MANHOLE SIZES.
6. PRECAST MANHOLES WILL BE PROVIDED WITH PULLING POINTS FOR EASY REMOVAL OF COVER. TWO 1/2" DIA. COPPER WIRE WILL BE PROVIDED WITH PULLING POINTS FOR EASY REMOVAL OF COVER. TWO 1/2" DIA. COPPER WIRE WILL BE PROVIDED WITH PULLING POINTS FOR EASY REMOVAL OF COVER.
7. MANUFACTURER WILL DELIVER MANHOLE TO INSTALLATION SITE AND SET MANHOLE IN ACCORD WITH PRELIMINARY EXCAVATION.
8. GROUND PILES MUST BE DRIVEN BEFORE TOP SECTION OF MANHOLE IS SET INTO POSITION.
9. A LEVEL 3/4" TO 1" DIA. EACH LAYER OF GRAVEL OR CRUSHED STONE MUST BE PROVIDED IN THE BOTTOM OF THE EXCAVATION TO SET THE MANHOLE ON.
10. CONDUIT RINGS SHALL BE SLOPED SO AS TO DRAIN INTO MANHOLES.

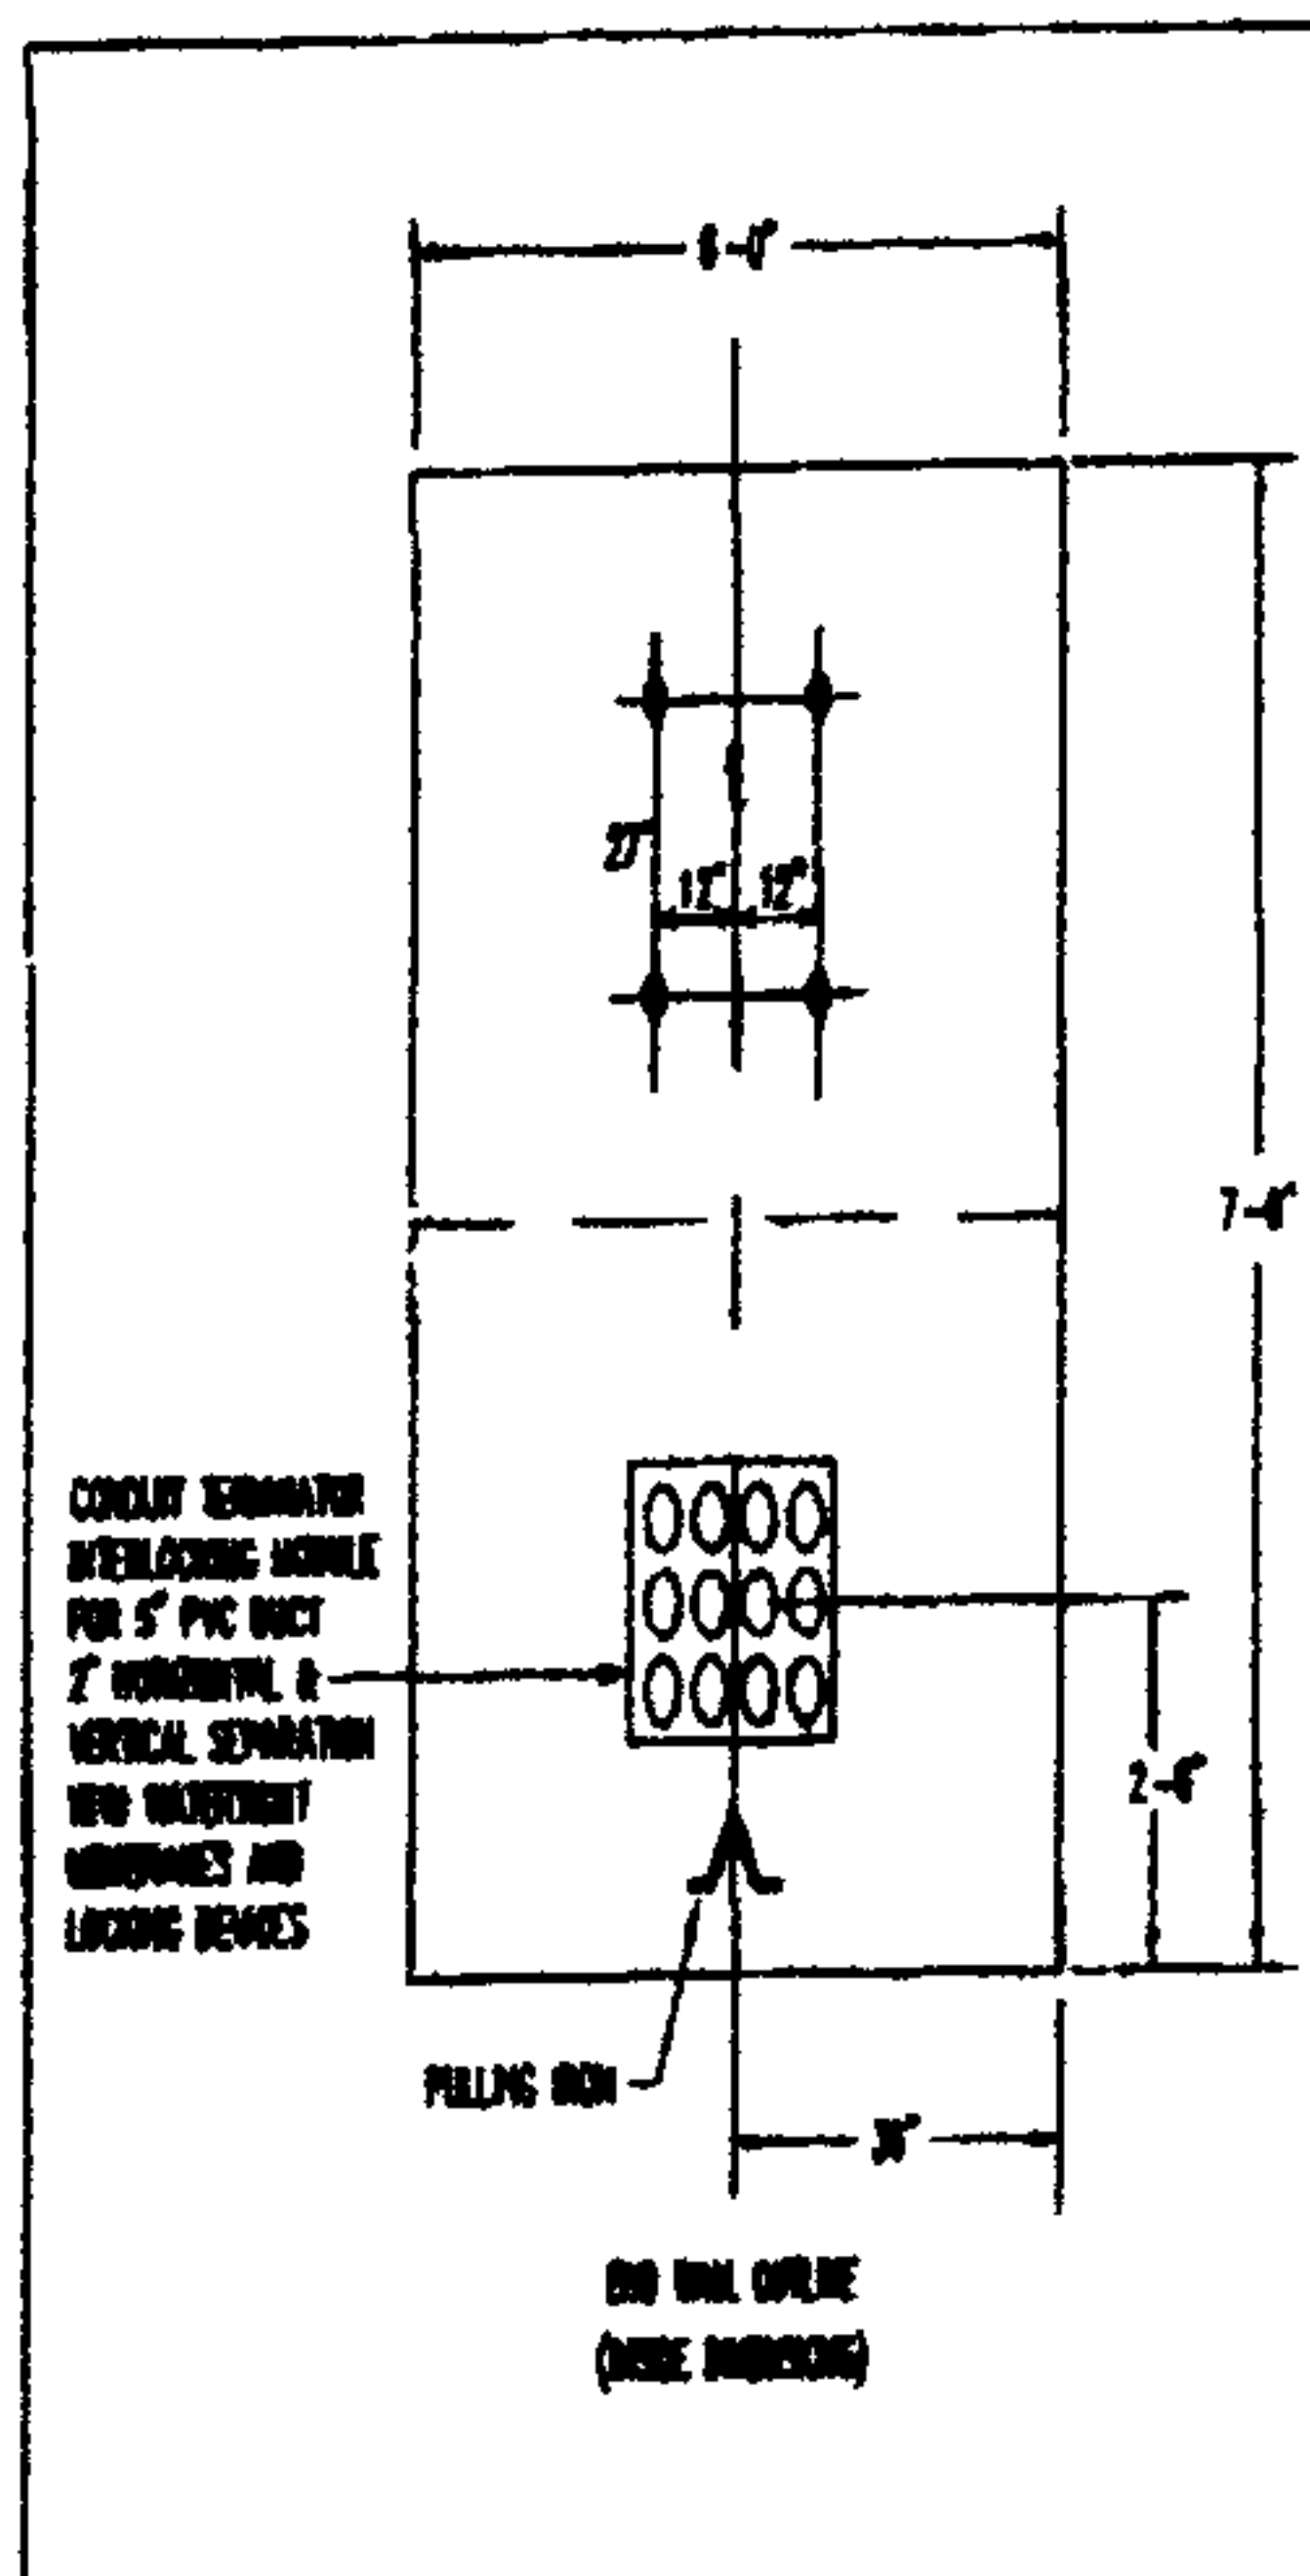

MANHOLE B.L. 12.12.12

SUMP DETAIL
N.T.S.

NOTES

1. CONDUIT TO BE TYPE 80.
2. CONCRETE TO BE 13.5 MIX WITH 1/2" OR UNDER GRAVEL OR CRUSHED STONE AGGREGATE.
3. A MINIMUM OF 2" CONCRETE BETWEEN DUCTS AND 3" OF CONCRETE BETWEEN DUCTS AND OUTSIDE SURFACES OF CONCRETE DUCT LINE SHALL BE MAINTAINED. THE TRENCH WALL SHOULD ACT AS THE FORMS FOR THE CONCRETE ENCASEMENT AND SHOULD BE MADE NO THINNER THAN NECESSARY TO PROVIDE THE MINIMUM 3" CONCRETE ENVELOPE.
4. PLASTIC SPACERS SHALL BE USED TO PROVIDE PROPER CLEARANCE BETWEEN CONDUITS AND BETWEEN CONDUITS AND TRENCH FLOOR.
5. INSTALL A NYLON PULL CORD IN ALL COMPLETE CONDUIT RUNS.

1. THE CONCRETE USED SHOULD BE 13.5 MIX WITH 1/2" OR SMALLER GRAVEL OR CRUSHED STONE AGGREGATE. THIS MIX SHOULD HAVE A MINIMUM COMPRESSIVE STRENGTH OF 2500 PSI. THE SUMP SHOULD BE IN THE MIDDLE OF 7 FEET TO 9 FEET. ALL CONCRETE SHOULD BE POLISHED WITHIN 1-1/2 HOURS OF POURING.
2. WHEN PLACING CONCRETE AROUND THE CONDUIT, AGAINST THE REINFORCING CHAIRS, SO THAT THE FULL OF THE CONCRETE INTO THE TRENCH IS AS THICK AS POSSIBLE. USE A SPREADER TO DRAIN THE FLOW OF CONCRETE AWAY FROM THE TRENCH SIDES TO AVOID OVERLOADING SOIL AND ROCKS.
3. DURING CURETIME THE CONCRETE SHOULD BE POLISHED FROM ONE END OF THE SECTION TOWARD THE OTHER END OF THE SECTION BY THE CHOICE FROM EACH END OF THE SECTION TOWARD THE CENTER.
4. WHEN A TRENCH IS OPENED, IT SHOULD BE PROTECTED BY A TRENCH BOX OR SHIELD. THE TRENCH SHOULD BE PROTECTED BY A TRENCH BOX OR SHIELD. THE TRENCH SHOULD BE PROTECTED BY A TRENCH BOX OR SHIELD.
5. THE TRENCH CAN BE OPENED ANY TIME AFTER THE CONCRETE HAS BEEN PLACED AND LEVELLED. THE CONCRETE SHOULD BE COVERED WITH A MINIMUM OF 4 INCHES OF SELECTED INFILL SPILLS FROM THE TRENCH CAN BE USED FOR THE REMAINING INFILL.
6. ON TRENCH SIDES IF THE CONCRETE CANNOT BE COVERED IMMEDIATELY AFTER LEVELING, ONE OR TWO RINGS OF FINE SOIL OR SAND SHOULD BE PLACED OVER THE CONCRETE. THIS COVER PREVENTS IMPROPER COMPRESSION OF SAND FROM THE SURFACE OF THE CONCRETE.
7. WHEN NECESSARY TO STOP CONSTRUCTION, PLASTIC FILMS SHOULD BE USED TO TEMPORARILY SEAL THE CONDUIT END AGAINST DIRT AND WEATHER. IF CONDUIT IS TO BE LEFT UNCOVERED, THE FILM ONLY AT ONE END.
8. DUCTS SHOULD BE PROTECTED BY A TRENCH BOX OR SHIELD. THE TRENCH SHOULD BE PROTECTED BY A TRENCH BOX OR SHIELD. THE TRENCH SHOULD BE PROTECTED BY A TRENCH BOX OR SHIELD.
9. PLASTIC SPACERS SHOULD BE USED TO PROVIDE PROPER CLEARANCE (2") BETWEEN CONDUITS AND BETWEEN CONDUITS AND TRENCH FLOOR (2"). SPACER SETS SHOULD BE INSTALLED NOT MORE THAN 8' APART. THE SPACERS SHOULD BE TIED DOWN USING 1/4" REINFORCING BARS OR EQUIVALENT.

TYPICAL 4-WAY (2 WIDE, 2 HIGH) DUCT LINE
