No written notice required.
- d. **Mineral Interests.** Covenantor specifically reserves a qualified mineral interest in subsurface oil, gas, or other minerals and the right to access such minerals. However, there shall be no extraction or removal of, or exploration for, minerals by any surface mining method, nor by any method which results in subsidence or which otherwise interferes with the continuing natural condition of the protected property.

5. **Compliance Inspections.** The Corps, and its authorized agents shall have the right to enter and go upon the lands of Covenantor, to inspect the Property and take actions necessary to verify compliance with these restrictive covenants.

6. **Enforcement.** The Covenantor grants to the Corps and/or the U.S. Department of Justice, a discretionary right to enforce these restrictive covenants in a judicial action against any person(s) or other entity(ies) violating or attempting to violate these restrictive covenants; provided, however, that no violation of these restrictive covenants shall result in a forfeiture or reversion of title. In any enforcement action, an enforcing agency shall be entitled to a complete restoration for any violation, as well as any other judicial remedy such as civil penalties. These enforcement rights are cumulative, in addition to, and shall not limit enforcement rights available under other provisions of law or equity, or under any permit or certification.

7. **Property Transfers.** Covenantor shall include the following notice on all deeds, mortgages, plats, or any other legal instruments used to convey any interest in the Property (failure to comply with this paragraph does not impair the validity or enforceability of these restrictive covenants):
