EXHIBIT "B"

Future Waiver of Surface Rights

1. For purposes hereof, the following terms shall have the meanings assigned to them below:

"Conveyance Date" with respect to each Improved Lot shall mean the date of recording of the first deed to such Improved Lot (in the real property records of the county in which such Improved Lot is situated) following the completion of construction of a residence thereon.

"Improved Lot" shall mean a Lot upon which construction of a residence has been completed.

"Lot" shall mean a residential lot situated within the boundaries of the Property for which a final plat has been approved by all required governmental authorities and recorded in the appropriate plat records of the county or counties in which the Property is situated.

"Owner" shall mean the grantee in the first deed to an Improved Lot following the completion of construction of a residence thereon for so long as such grantee holds title to such Improved Lot and, thereafter, shall mean the then-current record title holder of such Improved Lot.

"Surface" shall mean the area between the finished grade of an Improved Lot to a depth of thirty (30) feet below the finished grade.

All other defined terms used herein shall have the meanings assigned to them elsewhere in this Deed.

2. The following waiver of Surface rights shall be effective with respect to each Improved Lot from and after the Conveyance Date of such Improved Lot:

Effective as of the Conveyance Date of an Improved Lot, Grantee, on behalf of Grantee and its successors and assigns, hereby releases and waives unto and for the benefit of the Owner of such Improved Lot (and such Owner's successors-in-title thereto) all rights of ingress and egress to enter upon the Surface of such Improved Lot for purposes of exploring for, developing or producing the Minerals, Resources and Groundwater conveyed by this Deed; provided, however, nothing herein shall be deemed to prevent Grantee, or its successors or assigns, from exploring for, developing, drilling, producing, withdrawing, capturing, pumping, extracting, mining or transporting the Minerals, Resources and Groundwater in, on and under, and that may be produced from the Lots (including Improved Lots) or the Property, by pooling, unitization, directional drilling or any other manner or method that does not require the entry upon the Surface of such Improved Lot, and there is hereby expressly reserved to Grantee, and its successors and assigns, the right to explore for, develop, drill, produce, withdraw, capture, pump, extract,

mine and transport the Minerals, Resources and Groundwater from the Lots (including any Improved Lots) and the Property (and to have access to and control of underground formations of the Minerals, Resources and Groundwater) through wells or other structures at surface locations situated outside the boundaries of such Improved Lot.

The foregoing waiver of Surface rights shall not be effective as to (a) any Lot which is not an Improved Lot, or (b) any Improved Lot until the Conveyance Date of such Improved Lot.

3. At such time as the foregoing waiver of Surface rights becomes effective with respect to an Improved Lot, such waiver of Surface rights, as it affects such Improved Lot, shall be subject and subordinate to any and all matters of record in the county in which the Property is situated, including, without limitation, any easements created for access or for transportation of any Minerals, Resources or Groundwater. Subject to the terms of the preceding sentence, any successor or assignee of Grantee's interest in the Minerals, Resources and Groundwater or any portion thereof shall take the same subject to the foregoing waiver of Surface rights, and any conveyance, assignment, lease or other transfer of all or any portion of Grantee's interest in the Minerals, Resources and Groundwater shall be deemed to be made subject to the foregoing waiver of Surface rights, whether or not expressly stated in such conveyance, assignment, lease or other transfer. No such conveyance, assignment, lease or other transfer shall be deemed to cause the foregoing waiver of Surface rights to be effective with respect to any Lot prior to the date stated in Section 2 above.

4. With respect to the Property or any portion thereof, the foregoing waiver of Surface rights and any other provisions of this Exhibit "B" may be terminated or amended by a written agreement signed by Grantee, or its successors or assigns, and the then-current record title holder of the Property or such portion, which written agreement shall be recorded in the real property records of the county in which the Property or such portion is situated.

5. The foregoing waiver of Surface rights (a) does not affect any Minerals, Resources and Groundwater, or any interest therein, not conveyed by this Deed, and (b) must vest, if at all, not later than the 21st anniversary of the death of George H. W. Bush's last living descendant who is alive on the date of this Deed.
