Previously, I understood that Ray and Jerry were executors to the original Will of Ralph and Vanala.

Are the executors planning to put the house and land (belonging to Ralph and Vanala) up for sale? If so, why are you waiting? If not, why not? The property is currently worth approximately \$65,000. Even in a low economy, it should sell for \$55,000+. I feel like it should be listed with a real estate company as soon as possible.

Would someone please respond to this letter and give me some answers. (over)

I am one of two next of kin to Ralph
and feel that I am entitled to
some answers.

Thank you,
