RE: Mr. Kenneth C. Hill
DOB: 06/16/1934 WM

To Whom It May Concern:

Mr. Hill presented today for a complete eye examination as his last exam was in 2011. At that time patient was able to communicate effectively throughout the exam. Per Dr. James Abroms, Mr. Kenneth Hill is suffering from dementia. During today's evaluation the patient is not able to respond to simple tasks such as reading the eye chart. It does appear that Mr. Hill is no longer able to manage his personal affairs due to his progressive dementia. Attached is the eye examination from today for further review.
