The right from time to time to construct, install, operate and maintain, upon, over, under and across the Property described below, all poles, towers, wires, conduits, fiber optics, cables, communication lines, enclosures, transformers, anchors, guy wires and other facilities useful and necessary in connection therewith (collectively, "Facilities"), for the overhead and/or underground transmission and distribution of electric power and communications, along a route selected by the Company, as generally shown on the Company's drawing attached hereto and made a part hereof, but which is to be determined by the actual location(s) in which the Company's facilities are installed. The width of the Company's easement will depend on whether the Facilities are underground or overhead; for underground, the easement will extend five (5) feet on each side of said Facilities as and where installed; for overhead Facilities the easement will extend fifteen (15) feet on each side of the centerline of said Facilities as and where installed. The Company is granted the right to clear, to keep clear, all trees, undergrowth and other obstructions on a strip of land extending five (5) feet from each side of said underground Facilities, and to clear, to keep clear, all trees, undergrowth and other obstructions on a strip of land extending fifteen (15) feet from each side of the centerline of said overhead Facilities and the right in the future to install intermediate poles and facilities on said strip. Further, with respect to overhead Facilities, the Company is also granted the right to trim and cut, and keep trimmed and cut, all dead, weak, leaning or dangerous trees or limbs outside of the thirty (30) foot strip that, in the sole opinion of the Company, may now or hereafter endanger, interfere with, or fall upon any of said overhead Facilities.

Grantor hereby grants to the Company all easements, rights and privileges necessary or convenient for the full enjoyment and use thereof, including without limitation the right of ingress and egress to and from said Facilities, as applicable, and the right to excavate for installation, replacement, repair and removal thereof; and also the right to cut, remove and otherwise keep clear any and all structures, obstructions or obstacles of whatever character, on, under and above said Facilities, as applicable.
