Dear Mr. Harris,

We are requesting a 20 feet wide easement for our sewer line locate on Parcel ID number 13-8-34-3-002-001.000 and further depicted on attachment 1. This easement will allow the city to perform the actions described below.

Sec. 44-88. - Same—Entry on easements.

SECTIONCOMPARE VERSIONS**

The superintendent and other duly authorized employees of the city, bearing proper credentials and identification, shall be permitted to enter all private properties through which the city holds a duly negotiated easement for the purposes of, but not limited to, inspection, observation, measurement, sampling, repair and maintenance of any portion of the sewage works lying within such easement. All entry and subsequent work, if any, on such easement shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved.

(Code 1994, § 102-35; Code 2005, § 118-85)

In general, you may treat it like it is your yard / field. You may not build any permanent structures within this easement. If landscaping or fencing is installed, we may remove this to maintain / repair our sewer line if needed. We generally try to put back sod or grass when we enter easements. We are not however responsible for landscaping or fencing. If you ever do desire to put up a fence, we would request that you coordinate with us and install gates that allow us access to our sewer infrastructure. If we must enter the property, we will try to notify you, however in an emergency, we would have authority to enter and address the problem.

Thanks for your cooperation in this matter.

Sincerely,

Fred Hawkins, PE
