Overhead and/or Underground. The right from time to time to construct, install, operate and maintain, upon, over, under and across the Property described below, all poles, towers, wires, conduits, fiber optics, cables, communication lines, trans closures, transformers, anchors, guy wires, and other facilities useful or necessary in connection therewith, and, for underground facilities, the right to install a meter adapter junction box ("Adapter") in the general vicinity of the existing meter enclosure on the Grantor's structure to facilitate the delivery of underground electric service to the Grantor (collectively, "Facilities"), for the overhead and/or underground transmission and distribution of electric power and communications, along a route selected by the Company, as determined by the location(s) in which the Company's facilities are to be installed.
